

Jörgen Petersen is Ortivus' new Service & Support manager

Ortivus are happy to announce that Jörgen Petersen has been recruited as new Service & Support manager and as a member of the management team. Jörgen Petersen succeeds Mario Melki, who continues in the company in another position.

With over 30 years of experience from the IT-industry, Jörgen has held leading and customer-oriented positions such as Technical Relationship Engineer and Head of Server & Database Management at companies such as Akamai Technologies and Axians. Prior to joining Ortivus, he held the role as Head of Service Delivery at the company Datacenter. Jörgen has solid experience of customer service and leadership.

"With an increasing number of customer installations, our support organisation is growing and Jörgen's experience from previous leading positions will be a valuable addition to our continued expansion. A growing customer base require secure and scalable server solutions, and Jörgen's industry experience will be an important asset." says Reidar Gårdebäck CEO.

About Ortivus

Ortivus develops and commercialises MobiMed, medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' products are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm and the company has, since 1998, a wholly-owned subsidiary based in the United Kingdom.

MobiMed is a modular platform that currently is used by over 12 000 paramedics in over 2 700 emergency vehicles. The platform consists of a monitor that in real-time measures, monitors and shares patients' vital parameters, such as, ECG, blood pressure and blood oxygenation. The system also consists of an electronic patient record for decision support, collection of patient data and clinical documentation.

MobiMed has a total weight of 2.5kg and is created to function in a demanding environment and out in the field. The two-way communication supports telemedicine consulting with clinical experts while patient data is seamlessly integrated into the medical records at the hospitals and primary care centers. MobiMed saves time and helps healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
