

Netel Norge signs agreement with Ice on 5G expansion

Netel in Norway has signed an agreement with Ice for the upgrade and new construction of base stations. Ice aims to expand 5G across the country.

The agreement means that Netel is responsible for planning, implementation, documentation, testing and commissioning of 5G infrastructure.

Netel is one of four suppliers to Ice sharing a total contract value of about NOK 1.5 billion over the next few years.

"This contract is of great importance for Netel," says Edward Olastuen, country manager for Netel in Norway and the UK. "We are happy to be involved in building the mobile network of the future together with the innovative operator Ice, and this shows that our investment in building competence in 5G was the right decision."

"We are looking forward to this new collaboration," says Ove Bergkvist, CEO and CEO of Netel. "We have extensive experience in large telecom projects and are proud to be involved in building an efficient infrastructure in Norway."

"We look forward to continuing the expansion of our 5G network with Netel on board," says Eivind Helgaker, CEO of Ice. "In order for us to be able to offer our customers the best possible services, it is important to work with partners who we know can deliver on sustainability, efficiency and safety. And that is something Netel can do."
