

Billecta sets new record for billing transactions in March

SaveLend Group AB's subsidiary, Billecta AB ("Billecta"), continues to grow. In March 2025, the company's billing platform processed over 550,000 billing transactions – a new record and an increase of nearly 10% compared to the same month last year.

This development highlights the platform's capacity and scalability, as well as the value Billecta delivers to its customers by offering a fully automated billing solution – from invoice creation to payment reconciliation.

Since Billecta was acquired in 2018, SaveLend Group has supported the company's growth journey. Today, the billing platform serves as a trusted partner to clients across the nonprofit sector, member organizations, and the private business community. Among Billecta's users are organizations such as Cancerfonden, the Swedish Medical Association, Akavia, Storage365, and Qasa.

"Surpassing 550,000 transactions in a single month is a clear sign of the reliability and efficiency of our solution. It's the result of a strong team, a sharp offering, and close collaboration with our customers," says Mats Röjdmarm, CEO of Billecta AB.

With continued growth and high customer satisfaction, Billecta is well-positioned to capture additional market share and continue its expansion throughout 2025 and beyond.

About SaveLend Group:

SaveLend Group AB, 559093-5176, is a fintech company with approximately 65 employees and offices in Sweden and Finland. The business is based on the savings platform SaveLend and the billing platform Billecta.

The savings platform makes it possible for savers to get yield through saving in credits, such as SME, real estate, consumer credit and factoring in both SEK and EUR. The billing platform consists of a complete billing system containing, among other things, accounts receivable, notification, and financing solutions.
