

Ernströmgruppen acquires Kokko Control Oy

Ernströmgruppen AB has acquired 100% of the shares in Kokko Control Oy, an expert supplier for key components of industrial and power plant products. The company has a turnover of 4,5 M€ and will be part of the Flow Technology business area and integrated into Armatec Finland.

Kokko Control delivers demanding components for industrial and power plant use. Based in Espoo Finland, Kokko Control provides customers with a full-service package. Main product categories are valves, flow elements, economizers, expansion joints, fire protection, and service & commissioning incl. spare parts. Kokko Control has worked closely with this industry for over 50 years.

Kokko Control will be a strong addition to Armatec Finland's offering to the market. Through industry-leading solutions, Kokko Control has over time established a strong market position in the Finnish market with long-term relationships with customers and suppliers.

"Kokko Control focus on helping its customers with energy-efficient solutions with a high level of service while reducing the environmental impact. They have long-term customer and supplier relationships, which enables stability and is fully in line with Ernströmgruppen's endeavor to deliver sustainable solutions for energy efficiency. It is our ambition that we together will further develop the niche they have been successful in," says Fredrik Skarp, business area manager for Flow Technology at Ernströmgruppen.

Ernströmgruppen is a family-owned, long-term group that shares our values in entrepreneurship and sustainability. We are happy to be part of Ernströmgruppen with companies that share our opportunities and challenges, and we look to the future with confidence, because today we are working well, but tomorrow will surely be even better and can together develop Kokko Control to the next level", says former CEO and owner Johan Bäckström.
