Enea Initiates Share Repurchase Program

The Board of Directors of Enea AB has resolved to initiate a share repurchase program of up to SEK 20 million, pursuant to the authorization granted by the Annual General Meeting on 7 May 2026. The repurchase program will commence on 16 November 2026.

The decision follows Enea's announcement on 22 October 2026 regarding its intention to initiate a share repurchase program during the fourth quarter of 2026.

Repurchases will be carried out in accordance with the EU Market Abuse Regulation (MAR) and Commission Delegated Regulation (EU) 2016/1052 (the Safe Harbour Regulation). Repurchases will be executed by an investment firm or credit institution that makes its trading decisions independently of Enea regarding the timing of the repurchases. Completed repurchases will be disclosed in accordance with applicable regulations.

The repurchase program is subject to the following terms and conditions:

- Repurchases shall take place on Nasdaq Stockholm in accordance with its rulebook for issuers, MAR and the Safe Harbour Regulation.
- Repurchases may take place from 16 November 2026 up to and including the day before the Annual General Meeting 2027.
- The number of shares that shall be repurchased may not result in the company's shareholding after the repurchase exceeding 10 per cent of the total number of shares in the company.
- Repurchases may only be made at a price per share within the registered price interval on Nasdaq Stockholm at any given time, subject to the price restrictions under the Safe Harbour Regulation.
- Payment for repurchased shares shall be made in cash, and the aggregate amount paid for repurchased shares may amount to at the highest SEK 20 million.

The purpose of the repurchase program is to enable Enea to adapt its capital structure to its capital needs over time and thereby contribute to increased shareholder value.

As of 10 November 2026, the total number of shares in Enea amounts to 19,247,962, all of which are ordinary shares. Enea currently holds 462,207 of its own ordinary shares.
