

Quant and Alcoa conclude successful partnership

Alcoa in Norway and Quant entered a three-year contract in 2020. Alcoa has decided to execute maintenance operations internally after the completion of the contract period. Quant will continue to manage the maintenance on the site until 30 November 2023 to ensure the completion of the current contract and a smooth handover of the maintenance operation. Quant will reduce its contract portfolio value with approximately EUR 8.7 million in its second quarterly report in 2023.

After three years of partnership, Quant and Alcoa have achieved the main agreed objectives and realized performance improvements and developed safety culture to the next level.
