

AIRA PUBLISHES FULL DETAILS ON AIRA FOR FORTNOX AND ANNOUNCES LAUNCH TOUR ACROSS SWEDEN

Aira launches Aira for Fortnox on 1 November. All use cases, pricing and answers to the most common questions are published today at aira.app/fortnox. The waitlist has already started filling up, and access is granted on a first come, first served basis. After the launch, Aira takes the product on the road with the tour Aira Masterclass, hosting seminars in, initially, seven cities for thousands of entrepreneurs, small business owners and sales professionals.

Aira for Fortnox connects directly to Fortnox. Everything builds on the customers, invoices and orders already there, with the right company registration numbers from the first second. No forms to fill in, no data to move, no learning curve. The product is purchased in the Fortnox app marketplace for SEK 699 per month and is up and running the same day.

"Nobody is sloppy in their accounting system. That is why Aira for Fortnox has the right data from day one, and why every business owner can stay on top of their deals without spending a minute on admin," says Daniel Wikberg, founder and CEO of Aira.

At each seminar, Daniel Wikberg and the Aira team show how entrepreneurs create growth and how Aira for Fortnox helps them get there. Attendees receive an exclusive launch offer on site. The seminars are free of charge.
