

QleanAir launches innovative FS 60 air cleaner for industrial facilities with limited floorspace

QleanAir AB (publ), the premium provider of indoor air cleaning solutions, announces the launch of its latest innovation, the QleanAir FS 60. This lightweight, ceiling or wall-mounted air cleaner is specifically designed to enhance indoor air quality in industrial and logistic facilities with limited floor space.

Key Features of the QleanAir FS 60:

- **Flexible Mounting Options:** Adaptable to both ceiling and wall installations.
- **High Airflow Capacity:** Ensures efficient air cleaning in large spaces.
- **Cost-Efficient Operation:** Developed with a focus on low operating costs without compromising performance.
- **Flexible Air Outlets:** Dual adjustable and reconfigurable air outlets ensure clean air where needed for optimal cleaning of the facility.
- **Low Sound Levels:** Operates quietly with sound levels ranging from 28 to 64 dB(A).
- **Compliance:** Meets the most common sprinkler regulations in Europe.

The FS 60 is equipped with one of the most energy-efficient high-performance fans available, along with high-capacity and energy efficient mechanical filters classified according to EN 1822 and ISO 16890 standards. It offers smart features such as WiFi control, status monitoring via a portal as well as on the machine itself, and scheduling functionality to optimize energy and filter usage.

"We consulted with numerous specialists and customers in the industry to ensure every detail was considered in terms of design, flexibility, and effectiveness of the unit." says Johan Billing, Product Manager at QleanAir Scandinavia.

QleanAir develops flexible air cleaning solutions adaptable to customer needs. The FS 60 is available in two filter configurations and is now launched across Europe.
