# Playdigious releases mobile version of Legend of Keepers

**Playdigious SAS ("Playdigious"), a wholly-owned subsidiary of Fragbite Group AB (publ) ("Fragbite Group"), is today releasing the mobile version of Legend of Keepers on iOS and Android.**

Legend of Keepers is a strategy management game developed by Goblinz Studio. It was first released in 2021 on Steam, the world's largest gaming platform for PC games, and on console for Nintendo Switch. Since its initial release, Legend of Keepers has had over 600,000 units sold across platforms and 80% positive reviews on Steam.

*- "Playdigious demonstrates yet again their unique creative and technical development skills in porting games from one platform to another. Legend of Keepers has had success on both PC and console, and we are confident that gamers will appreciate the mobile version in equal measure,"* says Marcus Teilman, President & CEO of Fragbite Group.

*-"Legend of Keepers is the inaugural game published as a result of the new Playdigious growth strategy, which was set in motion at the end of 2022. We are delighted to witness the fruitful outcomes of our endeavours, taking concrete initial steps in the gradual expansion of our production capacity. Moreover, I am very pleased to have embarked on this first project together with rapidly emerging developer and publisher, Goblinz Studio, and eagerly anticipate future collaboration on other titles."* says Xavier Liard, VP Publishing & Indie Games of Fragbite Group and co-founder of Playdigious.

Legend of Keepers is released today on iOS and Android. The redesign to mobile includes a revamped interface, cloud-based storage and MFi controller compatibility, among other features.
