

Ekobot AB (publ) is granted a green loan by Almi Företagspartner Mälardalen

Almi Mälardalen AB has granted Ekobot AB (publ) a so-called green loan of approximately SEK 2.0 million. Almi's green loans aim to finance green investments that move towards one or more of the six environmental objectives in the EU's taxonomy.

Almi Företagspartner's green loans are aimed at small and medium-sized companies and are a financing product that enables green conversion and acceleration with clear business value. Almi's green loans focus on climate and other environmental issues that are in line with the EU's "green deal", which is the EU's growth strategy and framework for measures to achieve the goal of the EU being climate neutral by 2050.

- It is very gratifying that we have been given the trust and granted a loan by Almi Företagspartner to continue our growth journey. The loan is a so-called Green loan that is only given to companies with the ambition to clearly position themselves within the green transition, says Ekobot CEO Erik Jonuks

About Ekobot

Ekobot AB (publ), based in Västerås, operates based on the business concept of developing, manufacturing and selling autonomous agricultural robots that enable efficient precision farming where weed management takes place without or with minimal use of herbicides. The company's vision is to provide the agricultural sector with a long-term sustainable alternative to reduce or completely phase out chemical spraying in the cultivation of crops for human consumption. The company is listed on the Nasdaq First North Growth Market.
