

Explore our new website!

We've launched a new version of our website to make it easier to follow our progress, learn about our technology, and access investor information. We hope you will appreciate the new design and improved navigation, developed to give shareholders and partners an even clearer overview of our journey.

"Our updated website mirrors Neola Medical's continued progress and growing presence in both Sweden and the U.S. I invite all our shareholders and partners to visit and explore it," says CEO Hanna Sjöström.

About Neola Medical

Neola Medical AB (publ) develops an innovative medical technology device for non-invasive, continuous lung monitoring and real-time alerts of potentially life-threatening lung complications in preterm born babies. By enabling instant detection, the technology aims to support earlier intervention, improve clinical decision-making, enhance long-term outcomes, and ultimately contribute to saving lives. The patented, cutting-edge technology was developed at Lund University in Sweden and is based on a spectroscopic method that measures changes in lung volume and oxygen gas concentration. Neola Medical builds on Sweden's longstanding legacy of medical technology innovation and contributions to global health care. Neola Medical was founded in 2016 and is listed on NASDAQ First North Growth Market (ticker: NEOLA). Read more at www.neolamedical.com. The company's Certified Adviser is FNCA Sweden AB.
