

Gapwaves' Nomination Committee proposes Per Norén as new board member and Chairman of the Board

Gothenburg, 3 July 2026: The Nomination Committee of Gapwaves AB has informed the company that it proposes Per Norén as a new board member and Chairman of the Board. The proposal will be addressed at an extraordinary general meeting.

Per Norén is CEO of the Nasdaq Stockholm-listed satellite communications company Ovzon and has over 30 years of international experience in leading positions within advanced technology and critical infrastructure. Throughout his career, he has worked at the intersection of AI and optimization, telecommunications, aviation, space, mobility, transport, and defense – with a consistent focus on translating innovation into international business and profitable growth.

He has held senior international positions at Swedish, international, and American technology companies, including Boeing, Anuvu (formerly Global Eagle), Carmen Systems, and Ovzon. Through these roles, he has helped develop technology companies through various growth phases – from fast-growing software companies and global industry to today's New Space sector. He has extensive experience in commercializing advanced technology, building international business, scaling organizations, and establishing long-term partnerships with global industrial companies as well as government agencies and customers within critical infrastructure.

Per has solid experience in corporate management at both private and publicly listed companies, as well as in strategic board work and corporate governance. He has been a board member of SOFF (the Swedish Security and Defence Industry Association) since 2025 and is active in Swedish and international industry organizations within the technology, space, and defense sectors.

“Gapwaves has a unique technology and significant international market potential. Throughout his career, Per Norén has worked at the intersection of advanced technology, commercialization, and international growth. His experience in turning innovation into business, building global partnerships, and scaling technology companies will be a valuable asset supporting the company as Gapwaves continues its commercial development and international expansion,” says Susanne Schilliger Kildal, Chair of the Nomination Committee.

The Board of Directors of the company will issue a notice convening an extraordinary general meeting, at which the Nominating Committee's proposal will be presented for a decision. Such notice will be issued at a time to be determined through dialogue between the Board of Directors and the Nominating Committee.

The Nomination Committee consists of Susanne Schilliger Kildal, appointed by Kildal Antenn AB (Chair), Lars-Inge Sjöqvist, and Johannes Müller, appointed by Hella GmbH & Co. KGaA.

About Gapwaves AB (publ)

Gapwaves AB (publ) develops wireless solutions based on unique and patented waveguide technology for millimetre-wave applications. Our products are primarily used in antennas for radar systems enabling autonomous driving and advanced safety solutions within the automotive industry. Through collaborations with leading players in the sector, we contribute to the development of safer and more efficient transport systems. The technology is cost-efficient, combines high performance with a compact design and is also suitable for industrial automation, telecommunications, smart cities, and civil-military applications – areas where precision and reliability are crucial. Gapwaves was founded in 2011 from research at Chalmers University of Technology and is listed on Nasdaq First North Growth Market Stockholm (GAPW B).
