

4C Strategies secures additional orders under previously announced development project for the US Department of War

4C Group AB (publ) ("4C") has received two additional orders under the development project for the US Department of War (DoW) announced in December 2025. The orders have a combined value of approximately USD 3 million, equivalent to approximately SEK 30 million, and cover licenses and the continued development of new functionality for training and exercises during 2027.

When the development project was announced, 4C communicated the potential for an expansion in 2027. The additional orders now confirm a continuation of the project and strengthen the company's order book for 2027.

Each order is worth approximately USD 1.5 million. Work will begin in the first quarter of 2027, with delivery completed in full during the year.

"The continued confidence of the US armed forces shows that we have delivered to plan in the first phase of the engagement. These orders strengthen our order book for next year and give us a solid base from which to continue building our presence in North America," says Jonas Jonsson, CEO of 4C Group AB.
