

GRANGEX applies for a change of listing to Nasdaq First North Premier and brings forward the publication of the quarterly report for the third quarter

GRANGEX AB (publ) today announces that an application for review for listing on Nasdaq First North Premier Growth Market has been submitted to Nasdaq. The ambition is to finalise the listing during the fourth quarter of this year. As part of this process, a conditional application for delisting has been submitted to NGM Nordic SME. The application is conditional on Nasdaq Stockholm AB approving GRANGEX for listing. Shareholders in GRANGEX do not need to take any action due to the planned change of listing.

GRANGEX also announces that the Board of Directors has decided to bring forward the company's report for the third quarter of 2024 to 6 November 2024 from the previously announced date of 14 November 2024, to enable an earlier date for application to Nasdaq First North Premier Growth Market.

'Grangex is facing an exciting future with two highly interesting mining projects in Dannemora and Sydvaranger. The listing will increase the visibility of the Grangex share and strengthen our profile towards both Swedish and international investors, a key for the upcoming financing required for a successful restart of these two mines. Our vision is to contribute to a sustainable society by supplying the minerals needed for the steel industry's green transition and the listing change is another step towards the ultimate goal', says Christer Lindqvist, CEO of Grangex.

Certified Adviser for the planned listing change is G&W Fondkommission.
