Magnus Agervald, CEO of KEYTO Group;

"The fourth quarter of 2025 was characterized by improved operational performance and a high level of acquisition activity. A total of seven agreements were signed for the acquisition of companies, in addition to seventeen business asset acquisitions. Net sales increased by 36 percent, and adjusted EBITDA increased by 64 percent. During the quarter, we continued to build our full - service platform through the acquisition of Smartify, which resulted in the establishment of the new "Handyman & Tech" segment. In early 2026, Hemfixarna was acquired, further strengthening the segment's offering.

As we enter 2026, my optimism remains intact. Our growing customer base and our portfolio of companies with strong strategic alignment position us well for continued growth and value creation in 2026 and beyond. I would like to extend my sincere thanks to all our customers for their trust, and to our employees for their exceptional commitment and contributions"
