

Maven Wireless receives breakthrough order in USA worth SEK 6,8 million

An American neutral host company will use Maven Wireless groundbreaking DAS to build mobile coverage in a casino in the state of Nevada, USA. The order value is approximately SEK 6,8 million*.

The order is received into Maven Wireless Inc., which is a subsidiary to the Maven Wireless group.

I am glad to partner up with an experienced neutral host who will implement the Maven DAS in their inbuilding coverage project. This is our first important sales in America and an important step for the company's further expansion. The north American DAS market is worth around USD 3,1 Billion (from MarketandMarkets 2022) and is a third of the total DAS market.

says Fredrik Ekström, group CEO of Maven Wireless
