

Impact Coatings Receives Additional Major Coating Services Order from Its Large North American Electrolysis Customer

Impact Coatings (Linköping, Sweden) has during 2025 achieved materially higher order intake compared to previous year for coating services for fuel cell and electrolyzer components. Today, November 14, the company received a coating services order valued at approximately USD 0.5 million from its large North American electrolysis customer. The customer is the leading manufacturer of hydrogen fuel cells and electrolyzers, located in north-eastern United States, who placed significant orders with Impact Coatings in 2023. With the new order, Impact Coatings has during 2025 received more than USD 1 million in orders for electrolyzer coatings from the customer.

As reported in Impact Coatings' Q3 2025 interim report published October 21, the Coating Service Centers in Sweden and China generated SEK 20.6 million in net sales during the period January-September 2025, an annual growth of 84%, ending Q3 2025 with a SEK 10.5 million Coating Services order backlog.
