

# QleanAir wins first significant order for new FS 30 in Japan

**QleanAir Holding AB (publ), the premium provider of solutions for clean indoor air, announces a first significant order in the Japanese market for the recently launched FS 30 HEPA.**

QleanAir is the market leader in Japan within Cabin Solutions. QleanAir's activity in Japan has recently been extended to cover also Facility Solutions, which is expected to contribute in a significant way to the future growth for QleanAir in Japan.

*- This order marks a significant milestone in the long and successful growth journey for QleanAir in Japan, says Christina Lindstedt, Chief Executive Officer, QleanAir.*

The customer is an extremely popular live theater production based in Tokyo with online demand /television media sales. This order is for 20 units with a 24-month rental contract for the new FS 30 HEPA air cleaner and will be used at their numerous practice studios for virus reduction purposes. High performance cleaning capacity, mobility along with minimal sound levels are the primary reasons for selection of the FS 30 HEPA.

*- We are delighted to contribute to keep the cultural sector running in these difficult times, says Glen Shimizu, Managing Director, QleanAir Japan.*

The new FS 30 HEPA air cleaner was developed in collaboration with the health care sector in Sweden. FS 30 is provided with HEPA 14 filter which is normally used to reduce the presence of viruses, bacteria, and other pollutants in sensitive environments, with a filtering guarantee of 99,995 percent. The new air cleaner is mobile and silent, making it suitable for any workplace, including public places, classrooms, healthcare, offices, and meeting rooms.
