

Skanska upgrades to the cloud version of C7 Projects

Skanska Industrial Solutions has chosen to upgrade to the cloud version of C7 Projects.

Triona has received an order regarding implementation projects for Skanska's paving contracts with an order value of SEK 9 million. C7 Projects supports Skanska Industrial Solutions' project management from budgeting and calculation to work orders, invoicing and forecasting. C7 Projects aims to streamline the work process, increase control and improve cash flow in projects.

'We are proud to have earned continued trust from Skanska. With the new C7, we can now ensure customer value and further streamline Skanska's project operations,' says Lena Ridström, CEO, Triona Group
