

BIMObject welcomes Arbor Wood to bimobject.com

BIMObject is delighted to announce that Arbor Woods' products are now available on bimobject.com. The partnership gives architects and designers worldwide access to new quality BIM objects.

Headquartered on the shores of Lake Superior, Arbor Wood Co. was established in 2012 in partnership with the University of Minnesota's Natural Resources Research Institute (NRRRI). With a wide range of installations throughout North America, Arbor Wood Co. is a leader in American-Made Thermally Modified Wood products.

"Arbor Wood Co. is thrilled to be available on BIMObject.com. Joining forces with the leading digital platform allows us to better support architects, designers, and engineers who seek design inspiration and product information. Together, we can create a more sustainable future for the built environment." comments Jon Heyesen, CEO of Arbor Wood Co.

"We are pleased to announce that we are entering into a partnership with Arbor Wood Co., a producer of thermally modified wood. Their dedicated effort to foster positive change in our industry and the global environment perfectly aligns with our mission to digitize construction for a more sustainable future." comments Martin Lindh, CEO BIMObject

Arbor Wood Co. produces thermally modified wood for a variety of outdoor and indoor applications including siding, decking, and dimensional lumber. The process starts by using domestically sourced and responsibly harvested wood which is thermally modified using only heat and steam. The result is a high-quality, performance-driven material, which sustains the natural beauty and design element of wood all without the use of harsh chemicals.

Arbor Wood Cos' products are now available in BIM format on bimobject.com

About BIMobject

BIMobject connects and digitizes the construction industry, so we can build smarter, faster and greener.

bimobject.com, our global marketplace for building products, helps millions of architects and engineers every year to find the right products and information for their projects. Our tools for sustainable construction (prodikt.com) help large property owners understand and minimize their impact on the environment. Together we build a better world.

BIMobject's shares are traded on Nasdaq First North under the ticker: BIM.
Certified Advisor: FNCA Sweden AB, info@fnca.se
