## COMMENTS FROM THE CEO, VALTTERI EROMA

### SHOWROOM DISTILLERY, NIGHTWISH GIN AND E-COMMERCE

Finally in December 2024 we opened our new and innovative Arctic Blue Showroom Distillery. It brings a whole new addition to our product offering when we get to develop new unique products, organize local product tastings and other events at the Arctic Blue Showroom Distillery in the heart of Helsinki. In the long run, this will increase Arctic Blue's product awareness and increase sales of our products. We are really excited to get everything up to speed during 2025.

Continuing executing our portfolio strategy, we launched a super-premium, Nightwish Gin in collaboration with the Nightwish band. We believe that this could be the hit product of the year 2025. Availability will be built on our newly launched e-commerce platform, enabling customers across seven European countries to easily purchase Nightwish Gin and our whole product portfolio directly. The webshop also serves to B2B customers, such as bars and restaurants, in most of these new markets.

### SALES

During the fourth quarter of 2024, our sales revenue increased by 21% compared to the corresponding period last year. We have progressed well with our HoReCa strategy in Finland, gaining new important chain listings and successfully implementing our sales campaigns in selected on trade premises. Despite the difficult economic environment, consumers still opted for premium drinks while celebrating the Christmas season and the end of the year. We achieved positive sales development also in the Nordic travel retail sector, driven by the successful Christmas campaign at the Helsinki Airport. Our fourth quarter 2024 sales revenue increased by 22% compared to the previous quarter.

In export market, despite our tightened focus and updated pricing model, our performance did not meet the expectations. This was the main reason why we accelerated our e-commerce activities and started building presence across Europe during the fourth quarter. We believe that current export market activities supported with e-commerce will lower the threshold and make it easier for new customers to purchase our products.

### SUMMARY

Although overall sales in 2024 was decreased compared to the previous year, we believe that we started to see positive signals in the form of improved sales performance towards the end of 2024. Due to our strong brand, we have been able to maintain our market position and achieve many new HoReCa listings in Finland, also for our new Arctic Blue Long Drink products.

Going towards 2025 we will start to build our offering through our new Arctic Blue Showroom Distillery in Helsinki together with NoHo Partners Plc. Developing our e-commerce capabilities and growing our global reach will a new kind of challenge but a positive one. With such a strong portfolio of multi award winning Arctic Blue products, a novelty product such as Nightwish Gin, and RTD's like Arctic Blue Long Drinks, will give us very good position to gain market share and grow even in a declining market environment.

## SIGNIFICANT EVENTS DURING OCTOBER – DECEMBER 2024

### SALES

In the fourth quarter of 2024, sales revenue was increased by 21% compared to the previous quarter and by 22% compared to the same period in the previous year.

On the Finnish domestic market the positive sales increase was fueled by well implemented sales campaigns in selected on trade premises. Renewed chain agreements enabled increased nationwide visibility and distribution.

The company achieved positive sales development also in the Nordic travel retail sector. Sales were driven by the successful Christmas campaign at the Helsinki Airport in cooperation with the Duty-Free operator Dufry.

In December 2024, Nightwish Gin, a collaboration with the band Nightwish, was also launched through this channel. While these initiatives have not yet had a significant impact on revenue, they are expected to contribute positively in 2025.
