Financial update

- Dura Sverige AB (the “Group”) reports proforma revenues of 443 (317) MSEK with an adjusted EBITDA of 61 (25) MSEK for the financial year 2024 (2023).
- Per December 31st, 2024, the Group held 295 MSEK in cash and cash equivalents and carried interest-bearing debt of 389 MSEK, before the repayment of pre-bond debt and the acquisition of Isolerab AB, which took place in January 2025.

We are proud to demonstrate strong growth on both the top- and bottom line in 2024 despite a challenging economic climate in Sweden. With new financing secured and the acquisition of Isolerab AB in the beginning of 2025, the Group is well-positioned on a robust foundation.

- Alexander Singer, Group CFO
