# Financial targets and ambitions

## Higher financial targets for 2020/21 and unchanged financial ambitions towards 2022/23

### Financial targets for 2020/21

- Total revenue growth at around 8% from FY 2019/20 (up from around 6%)
- Underlying revenue growth (like-for-like) at around 8% (up from around 6%)
- EBITDA margin before special items above 18% (after IFRS 16) (up from around 18%)
- CAPEX between DKK 120 and 140 m

### Financial ambitions towards 2022/23

- Turnover around DKK 4 bn
- EBITDA margin before special items above 18% after IFRS 16
- Annual CAPEX between DKK 80 and 120 m
- Gearing between 2.5 and 3 (lower gearing than pre-IFRS 16)

The above targets are subject to higher-than-usual uncertainty and do not factor in the effects of a potential aggravation of the current second wave of COVID-19 or a dramatic change in consumer behaviour in the wake of, for example, a recession in the second half of the financial year.
