

Intea recruits new staff to a number of positions

Intea has strengthened its organisation in Stockholm by hiring a Head of Finance and two new employees for the sustainability team.

The new Head of Finance will be Ulf Gunnarsson, who comes from Lassila & Tikanoja, where he has been Finance Manager. He will be responsible for the finance team in Stockholm, which currently has seven employees. Ulf will join the company at the end of November, replacing the former Head of Accounting who left the company just before the summer.

“As the company grows, the need to strengthen the central finance function is also increasing. Ulf has longstanding and wide-ranging experience in finance and will be an important addition to our organisation,” says Christian Haglund, CFO and Deputy CEO.

Intea is also strengthening its sustainability team and has recruited staff to two new roles, with Ulrica Johansson as Sustainability Coordinator and Abhishek Khan as Energy Optimiser. Ulrica joins us from Balder, where she has been an assistant property manager, and Abhishek is a newly graduated property engineer.

“Sustainability and energy optimisation are key components of Intea’s business and we aim to constantly put even more focus on this work. In these times, it is of course extra fun to also be able to recruit employees for new roles”, says Linda Schuur, Head of Sustainability.

Abhishek will join the company at the beginning of September and Ulrica will start in November.
