# Strong Result Aligned with Our Long-Term Targets

**During the quarter, our focused efforts resulted in a historically strong outcome. With continued strong demand across all product areas, we are taking steps in the right direction on our growth journey towards our financial targets.**

## Focused efforts delivered historically strong results

I am pleased to report that during the final quarter of 2025, we delivered in line with our ambitions, both in terms of customer deliveries and financial results. Thanks to the dedicated efforts of all employees at W5, we delivered a historically strong quarter in terms of net sales and profitability. At the same time, we secured several strategically important new contracts that strengthen our position and provide stability going forward.

Our high profit margin in the last quarter of the year is due to seasonal variations in the defence industry, where final deliveries often take place just before the end of the year. The doubling of net sales in the fourth quarter compared to the average of the previous quarters of the year led to economy of scale and a strong increase in profits. The product mix during the quarter also had a positive impact on profitability.

## Continued strong demand across all product areas

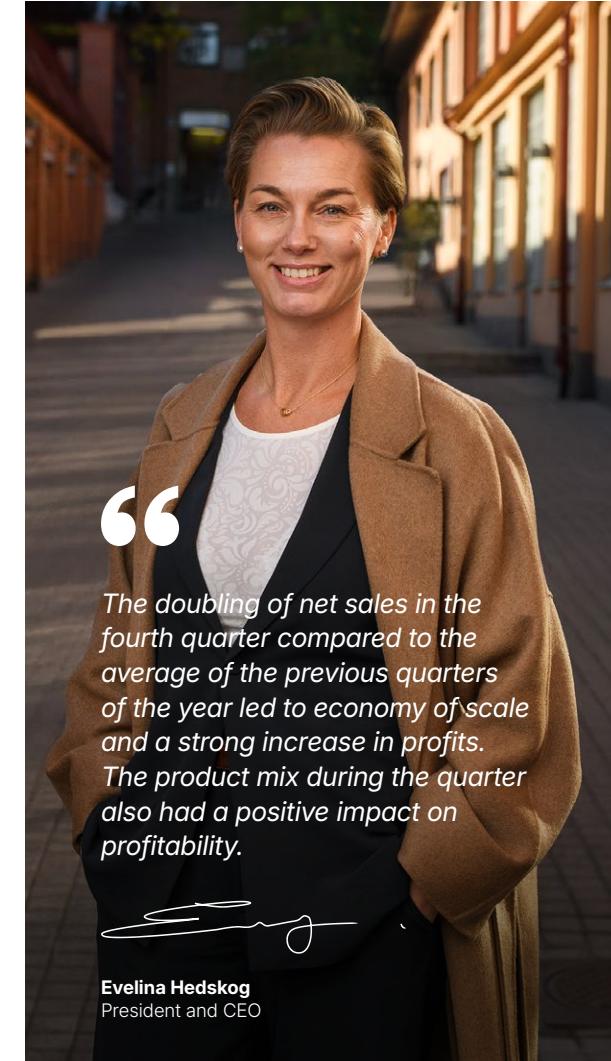

Despite record-high net sales, we continue to have a stable order backlog and do not see any slowdown in demand. During the fourth quarter, we communicated several larger contracts and activity levels are high across all seven product areas, each of which has different characteristics in terms of contract size, number of contracts and delivery lead times. Among the new contracts are, for example, the first order for our new hybrid power system, a larger integration contract and continued call-offs in our training segment.

## On track towards our financial targets

This year's positive result, together with a solid order backlog, mean that we have now taken concrete steps on our growth journey. The target of net sales of SEK 1 billion and achieving an EBIT of 10 per cent by 2027 remains firm, and we are moving in the right direction. Further work remains to secure stable profitability in future growth, but the strong forward visibility in the business, combined with an organisation prepared for increased order volumes, partly mitigates the risks. In parallel with the continued focus on profitable organic growth, we are also working in a structured manner with our acquisition agenda and are actively looking for the next building block in W5, albeit in a highly competitive market.

## Expectations and confidence

Continued focus will be required to, in a sustainable manner, succeed with the growth ahead. Over the long term, we must be prepared to deliver in volume with high quality to our customers, while at the same time taking care of our employees. Delivering the systems our customers need to build defence capabilities is not only a matter of achieving financial targets, but also of safeguarding our customers' trust and taking responsibility in a time of geopolitical uncertainty. We now look ahead to 2026 with confidence, a year in which profitable growth will continue to be a key focus.

“

*The doubling of net sales in the fourth quarter compared to the average of the previous quarters of the year led to economy of scale and a strong increase in profits. The product mix during the quarter also had a positive impact on profitability.*

# Financial Comments

## Fourth quarter October–December 2025

### Sales and orders

Net sales for the fourth quarter amounted to SEK 215.0 million (128.2), an increase of 68 per cent.

Order intake during the fourth quarter amounted to SEK 207 million (171), an increase of 21 per cent compared to last year. Demand remains high. Order backlog amounted to SEK 566 (310), corresponding to an increase of 83 per cent compared to the previous year.

### Operating profit (EBIT margin)

Operating profit (EBIT) amounted to SEK 47.6 million (9.6), with an EBIT margin of 22.1 % (7.6 %).

### Net profit

Net profit amounted to SEK 32.0 million (–1.0). Diluted earnings per share for the quarter amounted to 1.82 (–0.06) SEK.

### Cash flow and investments

Cash flow from operating activities during the quarter amounted to SEK 38.7 million (32.2). Working capital increased, partly due to higher trade receivables during the period, amounting to SEK –14.4 million (29.5). Cash flow from financing activities amounted to SEK –12.0 million (–18.6) and was explained by regular repayments of loans and lease liabilities. Total cash flow for the quarter amounted to SEK 5.0 million (12.9).

## January–December 2025

### Sales and orders

Net sales for the period amounted to SEK 491.6 million (387.7), an increase of 27 per cent. Order intake during the period amounted to SEK 730 million (499), an increase of 46 per cent compared to last year. The order backlog amounted to SEK 566 million (310), which is an increase of 83 per cent from the previous year.

### Operating profit (EBIT margin)

Operating profit (EBIT) amounted to SEK 37.8 million (–6.3), with an EBIT margin of 7.7 % (–1.6 %).

### Net profit

Net profit amounted to SEK 14.7 million (–18.8). Diluted earnings per share amounted to SEK 0.90 (–1.24).

### Cash flow and investments

Cash flow from operating activities for the period amounted to SEK –7.4 million (3.0). Working capital tie-up increased during the period as inventories and trade receivables increased with –63.4 million (5.6). Cash flow from financing activities amounted to SEK 83.6 million (–15.2) explained by the share issues carried out during the year amounting to SEK 139.7 million, and a repayment of a loan of SEK 20 million, in addition to the ordinary amortisation of long-term debt. Total cash flow for the period amounted to SEK 35.4 million (–12.4).

### Liquidity and financial position

As of the balance sheet date, the Group's cash and cash equivalents amounted to SEK 57.5 (22.8) million. In addition to cash and cash equivalents, the Group has two overdraft facilities of SEK 28 (28) million and NOK 5 (0) million. Both overdraft facilities were unutilised at the end of the period, amounting to SEK 0 (0) million and NOK 0 (0) million, respectively.

Equity at the end of the period amounted to SEK 472.6 (317.7) million. The equity ratio amounted to 68 (56) per cent. The Group's interest-bearing liabilities amounted to SEK 29.0 (72.8) million.

### Financial liabilities measured at fairvalue

Contingent considerations are recognised under non-current and current liabilities, respectively. At the end of the period, these amounted to a total of SEK 38.6 million (42.7). The provisions reflect Group Management's best assessment

of the probable outcome. They are evaluated continuously and revised if indications arise that a different outcome than previous estimates is considered more likely. For further information, refer to Note 3.

## Other information

### Group structure

As of the reporting date, the Group consists of the parent company W5 Solutions AB and its seven wholly owned subsidiaries: W5 Sweden AB, W5 Solutions Teleanalys AB, W5 Omniprivity AB, W5 MR Targets AB, W5 Finland Oy, W5 Norway AS (formerly Kongsberg Target Systems AS), and W5 Box Modul AB. During the quarter, W5 ArcQor AB was merged into W5 Sweden AB.

In addition, the Group holds a 50 per cent ownership interest in the associate Sytrac AB and a 40 per cent ownership interest in Swedef AB. Swedef AB's operations are focused on the distribution and resale of third-party products. The holding in Swedef AB was acquired in December 2025.

### Seasonal variations

The Group's strongest quarter is typically the fourth quarter (Q4), followed by the second quarter (Q2). The third quarter (Q3) is usually the weakest due to the holiday period. As the Group frequently works on long-term, high-value contracts, order intake may vary significantly between quarters.

An additional consequence of seasonal variations and the payment schedules of ongoing projects is that cash flow fluctuates between quarters.

### Employees

The average number of employees during the period January–December 2025 was 182 (190), of whom were 45 (47) women.

## Significant risks and uncertainties

The risk factors outlined in the latest 2024 annual report, on pages 37 to 39, remain relevant. No additional risks have been identified.

## Share capital and number of shares

The number of shares at the end of the period amounted to 17 559 271. The nominal value was SEK 0.05 per share. All shares are of the same series and have equal voting rights. The company had a total of 10 075 shareholders at the end of December 2025. W5 Solutions AB (publ) is listed on the Nasdaq First North Growth Market.

Top 10 shareholders as of 31 December 2025

## Outstanding share savings programmes

The programmes have a three-year performance period commencing either on 1 May 2023 or 1 October 2023 and ending three years thereafter. For each investment share, the participant has the opportunity to receive additional shares in W5 Solutions free of charge following the end of the performance period, provided that the performance targets are met ("performance share"). At the end of the quarter, there were 37 283 shares outstanding.

The Annual General Meeting resolved on a three-year warrant programme 2025/2028 of 180 000 warrants directed to senior executives that have been transferred at market value. Each warrant and employee stock option entitles the holder to subscribe for one new share in the company at a price of SEK 98.70 per share. The exercise period for the warrants runs from 1 June 2028 up to and including 31 August 2028.

## Forward-looking information

This report may contain forward-looking information based on the current expectations of Group Management. Although Group Management believes that the expectations expressed in such forward-looking information are reasonable, no assurance can be given that these expectations will prove to be correct. Accordingly, future outcomes may differ materially from those expressed in the forward-looking information due to, among other things, changes in market conditions for the Group's products, as well as more general changes such as in the economic conditions, markets and competition, amendments to legal requirements or other political measures, and fluctuations in exchange rates.

## Parent Company

The Parent Company's operations comprise management and group staff functions as well as other central costs. The Parent Company invoices the subsidiaries for these costs. Net sales for the parent company during the fourth quarter amounted to SEK 62.7 million (59.8) with a profit after financial items of SEK -8.7 million (-15.2). Cash and cash equivalents as at the balance sheet date are SEK 42.4 million (10.6). Equity amounted to SEK 418.1 million (282.2). The number of employees amounted to 4 (5).

## Annual General Meeting

W5 Solutions' Annual General Meeting for 2025 will be held in Stockholm on 7 May 2026. Shareholders who wish to have a matter addressed at the Annual General Meeting must

submit a written request to the Board of Directors no later than 19 March by email to [ir@w5solutions.com](mailto:ir@w5solutions.com). For further information about the Annual General Meeting, please visit, [www.w5solutions.com](http://www.w5solutions.com).

## Dividend

The Board of Directors proposes that the Annual General Meeting resolves that no dividend be paid for the financial year 2025.

## Definitions and terminology

### Net sales growth, %

The company's sales growth for the period compared with a previous period.

### Operating margin (EBIT margin)

Operating profit in relation to net sales.

### Equity ratio, %

Equity including non-controlling interests divided by total assets.

# Notes

## Note 1 Basis of preparation and accounting policies for the Group

The consolidated financial statements of W5 Solutions AB (publ) have been prepared in accordance with International Financial Reporting Standards (IFRS®) as adopted by the EU, the Swedish Annual Accounts Act, and the Swedish Financial Reporting Board's recommendation RFR 1 Supplementary Accounting Rules for Groups. The Parent Company's financial statements have been prepared in accordance with the Swedish Annual Accounts Act and the Swedish Financial Reporting Board's recommendation RFR 2 Accounting for Legal Entities.

The year-end report for January–December 2025 for the Group has been prepared in accordance with IAS 34, paragraph 16A, Interim Financial Reporting, and the interim report for the Parent Company has been prepared in accordance with Chapter 9 of the Swedish Annual Accounts Act. Disclosures in accordance with IAS 34 are provided both in the notes and elsewhere in this report. The accounting policies and calculation methods applied are consistent with those described in the Annual Report for 2024. New or amended IFRS standards and interpretations effective from 2024 have not had any material impact on the financial statements.

Rounding differences may occur in tables and calculations.

## Note 2 Operating segments and net sales by geographical market

As of 1 January 2025, the Group reports segment information in accordance with IFRS 8 Operating Segments. Segment information is presented based on management's perspective, and the operating segments are identified from the internal reporting provided to the Company's Chief Operating Decision Maker. W5 Solutions has identified the Group CEO as its chief operating decision maker, and the internal reporting used by the CEO to monitor operations and make decisions regarding the allocation of resources forms the basis for the segment information presented.

The segments are monitored at the operating profit level. Sales of goods and services between segments are carried out on market terms.

W5 Solutions' operational and management structure is divided into three business areas (described in the column to the right), which also constitute the operating segments: Integration, Training and Power, after allocation of group-wide costs.

W5 Solutions holds a strong market position in Sweden, with the majority of its sales revenue generated in the Swedish market. The company also has a local presence in Norway and Finland.

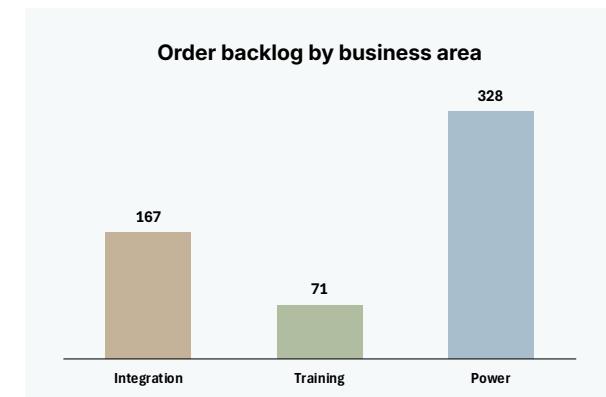

**Business area Integration** have strong capabilities in systems integration – ranging from the design and development of complete system solutions to the production of specialised harnesses that ensures operational reliability in complex environments. The business area develops and manufactures communication solutions for harsh conditions,

along with mobile and modular units – known as shelters – tailored for a wide range of applications.

**Business area Training** provides a complete ecosystem of training solutions, delivering all necessary equipment for training on shooting ranges as well as for tactical training. The business area offers a broad and advanced product portfolio, ranging from infantry and armoured vehicle targets to software that analyses and enhances shooting performance.

**Business area Power** delivers battery systems, chargers, and diesel- and hybrid-powered generators that ensure continuous power supply in the most demanding environments. The business area also delivers simulator-based training systems for vehicles, aircraft cockpits, weapon systems, and individual components – supporting modern military training with flexible, high performance solutions.

The business areas below were established on 1 September 2024; therefore, comparative figures cannot be presented.

<b>Net profit for the period</b>				<b>14 690</b>

### Note 3 Fair value of financial instruments

The valuation principles and classification of the Group's financial assets and liabilities, as described in W5 Solutions' Annual Report for 2024, have been applied consistently during the reporting period.

SEK thousand	Level	31/12/2025	31/12/2024
<b>FINANCIAL ASSETS AND LIABILITIES</b>			
<b>Financial assets and liabilities measured to fair value</b>			
Contingent considerations for earn-outs	3	38 638	42 740
<b>Total</b>		<b>38 638</b>	<b>42 740</b>

The Group holds no derivative instruments or other financial instruments measured at fair value. The fair value of non-current and current interest-bearing liabilities is not considered to differ materially from their carrying amounts. For financial instruments measured at amortised cost – including trade receivables, other receivables, cash and cash equivalents, trade payables and other non-interest-bearing liabilities – the fair value is considered to approximate the carrying amount.

Contingent consideration is measured at fair value in accordance with Level 3 of the fair value hierarchy. The calculation of contingent consideration is based on parameters specified in each agreement. These parameters are primarily linked to revenue and/or EBITA. The fair value of contingent consideration is based on Group Management's assessment of the amount expected to be paid. This assessment is made individually for each acquisition, based on the expected outcome of the performance targets set out in the respective agreements. The estimated value has been discounted to present value using a discount rate of 8 per cent. The contingent consideration may amount to a minimum of SEK 10 million and a maximum of SEK 41 million (undiscounted). Changes in the balance sheet item are presented in the table on the following page.

The payment during the year relates to contingent consideration to the former owners of W5 Omnitivity and W5 Norway AS. The change in fair value amounting to an additional SEK 7.3 million relates to contingent consideration to the former owners of W5 Box Modul AB and W5 ArcQor AB, which will be paid in 2026 and 2028, respectively.

SEK thousand	31/12/2025	31/12/2024
<b>Opening balance</b>	<b>42 740</b>	<b>66 431</b>
Acquisitions	-	-
Payment	-18 204	-23 815
Measurement to fair value accounted as operating income		-19 369
Measurement to fair value accounted as operating expenses		8 978
Measurement to fair value accounted as finance net	13 892	
Interest expenses	210	10 515
<b>Closing balance</b>	<b>38 638</b>	<b>42 740</b>

#### Note 4 Related party transactions

There were no material related party transactions during the period, apart from intra-group transactions conducted as part of normal business operations.

#### Review

This year-end report has not been subject to review by the company's auditors.

#### The Board of Directors' and the CEO's Assurance

The Board of Directors and the Chief Executive Officer certify that this year-end report provides a true and fair view of the development of the Group's and the Parent Company's operations, financial position and results, and describes the material risks and uncertainties faced by the Parent Company and the companies within the Group.

Approximately 220 employees

### Main markets

The Nordics, Germany, the United Kingdom and France

# Sustainability

## – an integrated part of our strategy

**We combine the power of technology with human responsibility – for a safer and more sustainable future.**

Sustainability is not a separate initiative at W5 Solutions – it is embedded in our business model and central to our mission: to develop and deliver defence and security technology that strengthens defence capabilities and supports a more resilient and sustainable society. Through *innovation, collaboration* and *excellence*, we ensure that security and sustainability go hand in hand.

Our products are designed for long life cycles and to be upgraded and maintained to improve resource efficiency and reduce environmental impact. This work is supported by certified management systems (ISO).

### 2024 Foundation

- A double materiality analysis was carried out to identify the Group's most material sustainability topics.
- A common governance structure was established, including Group-wide objectives and follow-up procedures.

### 2025 Implementation

- A Supplier Code of Conduct was implemented.
- A framework for climate reporting across the value chain was developed.
- A Head of Sustainability and Quality was appointed to strengthen governance.
- The Group joined the United Nations Global Compact, the world's largest global initiative for responsible business.

### 2028 Looking ahead

- Sustainability fully integrated into the Group's governance and decision-making processes.
- Increased transparency, follow-up and comparability in sustainability performance.
- Continued focus on long-term value creation and sustainable growth.
