

## Fram Skandinavien AB (publ) publishes monthly NAV report, August 2025 - NAV at 16 SEK per share

### Significant events during the month

The August NAV increased by +2% m-on-m, primarily driven by improvements in Carmudi's Media & Classifieds segment.

Carmudi reported a profitable month while EveHR incurred a modest loss.

Carmudi experiences continued difficulties in collecting one of its car dealer loans and will hence proactively be provisioning the entire amount in the next quarterly report (~140 kUSD). It is still possible that Carmudi might be able to collect some or all of this amount, but the company prefers to keep a prudent and proactive stance.
