

Monthly Statistics for SaveLend's Savings Strategies in June

SaveLend Group AB's savings platform, SaveLend, launched savings strategies in May 2023 to improve the customer journey and offer more customized saving options in terms of risk, return, investment horizon, and liquidity. The strategies, named Balanced and Yield, enable easier onboarding, fewer clicks, and simpler choices for anyone wanting to start saving. For investors who know exactly what they want and prefer to manage their portfolio composition based on credit type, interest, or maturity, the options Freedom and Project Finance are also available.

The savings strategies have delivered stable returns since their inception. In June, the Balanced strategy yielded 0.60% and the Yield strategy 0.63%. Over the past 12 months, this results in an average accumulated net return before tax of 7.09% for Balanced and 8.12% for Yield. The monthly return per strategy is calculated on accounts with a minimum of 2,000 SEK (which is the lowest recommended level for diversification purposes).

About SaveLend Group:

SaveLend Group AB, 559093-5176, is a fintech company with approximately 75 employees and offices in Sweden and Finland. The business is based on the savings platform SaveLend and the billing platform Billecta.

The savings platform makes it possible for savers to get yield through saving in credits, such as SME, real estate, consumer credit and factoring in both SEK and EUR. The billing platform consists of a complete billing system containing, among other things, accounts receivable, notification and financing solutions.
