Introduction

SSH Communication Security's ("SSH" or "Company") Remuneration Policy was presented in AGM 2020 and this Remuneration Report is compiled according to the Finnish Corporate Governance Code 2020.

The remuneration report is published annually in connection with SSH's corporate governance statement, and it will be presented to the shareholders in the annual general meeting following its publication.

Remuneration Policy sets out the principles for remuneration of the Board of Directors and the Chief Executive Officer ("CEO"). The remuneration of the Board and CEO in 2023 followed the Remuneration Policy framework and principles, and no deviations to the Policy have been made, nor have any claw backs of remunerations taken place.

This Remuneration Report presents information on the remuneration of the Board of Directors and CEO during the fiscal year 2023. It also presents the development of average employee remuneration and company performance over the past five financial years in comparison to CEO and Board remuneration.

Remuneration Principles

Remuneration of SSH's governing bodies is based on the Remuneration Policy that was accepted in the Annual General Meeting held on March 26, 2020. The Remuneration Policy is applied until the Annual General Meeting in 2024, unless the Board of Directors decides to present it to the General Meeting earlier. The Remuneration Policy is available at the company website. A new Remuneration Policy will be presented in the AGM held on 25.3.2024.

All remuneration intends to promote SSH's business strategy, long-term financial success and positive development of shareholder value while being fair, competitive, enhancing commitment and supporting SSH's general objectives.

Remuneration of personnel is based on a total remuneration, which include both variable and fixed components as well as normal personnel benefits. The remuneration of personnel is strongly guided by the performance-based remuneration which is applied throughout the organization.

Entire personnel are subject to a performance-based (individual and/or company-wide) remuneration scheme. In addition, personnel are mainly part of a long-term remuneration scheme, such as a share or stock option-based remuneration scheme.

This all aims to a personnel remuneration practice that is aligned with the interests of the Company and its shareholders and helps to engage and motivate key persons to operate in accordance with the shared goals.

The General Meeting decides on the remuneration payable for Board as well as the basis for its determination. Although the Board of Directors is not covered by the same overall remuneration as the personnel, the purpose of the remuneration of the board is also to steer activities towards the same long-term objectives of the Company.

The Board of Directors decides on the remuneration of the CEO in accordance with the Remuneration Policy. Remuneration of the CEO consists of fixed and variable remuneration, the proportions of which are assessed according to the company's business situation at hand and CEO's remuneration is partly based on the same variable components than other employees. The aim of variable remuneration is thus to steer the CEO and the personnel towards the same objectives and create a strong link between the Company's financial performance and CEO remuneration.

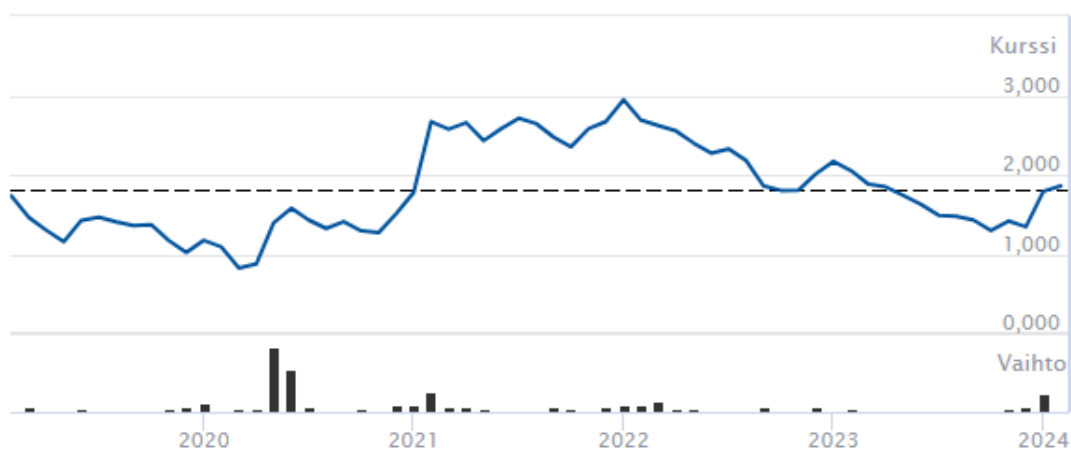

The following presents a comparison between the overall remuneration of the CEO and the Board, the average employee remuneration and company performance for the financial years 2019 to 2023. In below, also a graph of share price during the same period is presented.
