

## Origo hf. – Share buyback program initiated

Reykjavík, 3 February 2022

At Origo's Annual General Meeting on March 4, 2021, it was agreed to authorize the Board of Directors to purchase shares in the company once or more over the next 18 months, so that it and its subsidiaries, in accordance with other legal requirements, own up to 10% of its share capital. i.e. a maximum of ISK 43,500,000 nominal value.

On the basis of the aforementioned authorization, Origo's Board of Directors has decided to implement a repurchase program for the purchase of own shares. The repurchase program is valid until 31 July 2022, or shorter if the conditions for maximum purchases are met before that time.

The maximum number of shares that the program stipulates will be purchased is 4,350,000 shares at nominal value, which is equivalent to about 1% of the company's issued share capital. However, the amount of the repurchases will never exceed ISK 300,000,000.

The repurchase will be carried out by Kvikabanki hf. which makes all trading decisions regarding the purchase of shares and the timing of the purchase regardless of the company. The implementation of the repurchase program will be in accordance with the Act on Public Limited Companies no. 2/1995 and an appendix to the regulation on Insider Information and Market Fraud no. 630/2005.

The price for each share shall be a maximum of the highest price in the last independent transaction or the highest available independent bid offer in the Nasdaq Iceland trading system, whichever is higher. The maximum amount of each trading day is 330,128 shares at nominal value.

Purchases according to the repurchase program will begin on Monday 7th of February.

The company's trading in own shares in accordance with the repurchase program will be announced in accordance with laws and regulations.

Origo hf. currently owns 132,940 shares with a nominal value in the company, or about 0.03%.
