

Correction of Press Release: SolarSpring Ships First Solar Powered Drinking Water System to Burkina Faso

In our press release of 28 January on the ECO 3000 system delivery to Burkina Faso, atmosfair gGmbH instead of Eau Propre d'Afrique SARL was wrongly named as the contracting party, which we hereby would like to correct.

The last paragraph of the press release states that atmosfair gGmbH had ordered the ECO 3000 system in August 2021, when in fact the investor and operator Eau Propre d'Afrique SARL was the contractor of the system as described correctly in the first section. The earlier press release from August 30th, 2021 also does not state this fact properly. The climate protection organization atmosfair gGmbH is the financial supporter of the project and not the contractor.
