## CEO comment

B2 Impact's strong performance continued in the fourth quarter, and for the full year we reached our financial targets with a comfortable margin. I am very pleased that we continue to deliver on our commitments, and the proposed dividend of NOK 1.9 per share.

Portfolio investments in the fourth quarter were up 45% versus the same quarter last year and we ended the year with portfolio investments of NOK 3.7bn well within the target range. We have managed to reinvest the strong cash flow generated from REO sales in 2025, supporting further EPS growth in the coming years. We see an attractive market for portfolio investments with accretive returns, and year to date we have invested and committed NOK 1.2bn for 2026.

In January this year we placed a tap issue of EUR 200m in our bond maturing in 2031 in combination with a buy back of EUR 150m in our bond with maturity in 2029. With this we reduce the interest margin going forward, increase flexibility and extended our maturity profile. The tap issue was placed at a further improved margin of 3.22% and the transaction was significantly oversubscribed.

Going forward, automation will be in focus throughout the organisation. Despite a significant increase in investment activity in 2025 we have managed to maintain a stable cost level which clearly shows the scalability in our business model. I strongly believe there is more to come. For 2026-2028 our target is to grow earnings per share and dividends by at least 30% during the period, and at the same time maintain our leverage ratio below 2.5x.

Finally, I would like to express my gratitude to all our employees for their dedicated and hard work and to all our stakeholders for their continued support. We are very well positioned for another successful year.

## Investments

Portfolio investments in the fourth quarter were NOK 1 695m in unsecured within consumer finance and banking. The Group observed a solid pipeline and high market activity during the quarter. Investments were in line with the revised target of NOK 3.5-4bn for the full year. In the fourth quarter one off portfolios amounted to NOK 1 488m and the remaining NOK 206m through forward flows.

The Group has already invested and committed investments of NOK 1.2bn for 2026. The Group sees a continued active market for portfolio transactions into the first quarter, despite the quarter being seasonally slower than the previous quarter.

Estimated Remaining Collection (ERC) has developed in line with the strategic focus on core unsecured markets. Unsecured ERC has grown by 19% from the fourth quarter last year. Total ERC has increased 15% in the same period.

## Collection performance and revenues

### Unsecured collection performance

Unsecured collections continued the strong trend in the fourth quarter. Underlying collection performance versus latest forecast was 110% in the fourth quarter and 110% for the full year. Comparable cash collections were up 7% compared with same quarter last year and up 11% for the full year.

Cash from unsecured JVs was NOK 22m in the fourth quarter.

### Secured collection performance

Secured collections in the fourth quarter ended at NOK 177m, up 29% compared with same quarter last year. Comparable cash collections from secured were NOK 237m, up 32% compared with same quarter last year. Secured cash collections for the full year were NOK 1 260m up 32% compared with the previous year.

REO sales were NOK 59m in the quarter with a gain over book value of 45%. The REO sales for the full year were NOK 681m up 107% compared with previous year.

### Other cash revenues

Other cash revenues of NOK 106m were down 14% compared with the same quarter last year mainly due to lower JV servicing revenues.

# Operational efficiency

## Operating expenses (opex)

Total underlying opex in the quarter were down 4% compared with the same quarter last year. For the full year, the opex adjusted for NRIs were flat despite inflation and a significant increase in collections and ERC which underpins the scalability in our business.

## Cost efficiency and initiatives

The Group maintains a strong, ongoing focus on improving efficiency through technology. For example, our continued promotion of self-service portals and payment solutions is increasing the proportion of payments made via self-service channels by approximately 19% year over year.

Additional automation initiatives, such as automated phone calls, are also enhancing efficiency by reducing the need for human involvement. The use of voice bots together with automation of written communication are planned to accelerate in 2026 and onwards.

A strategic priority of the Group is to step up its coordinated technology deployment to further strengthen efficiency and scalability. Across our markets, automation of both collection activities and support functions is becoming more sophisticated, supported by a broad range of technologies from robotic process automation to AI-based tools.

# Cash EBITDA

Cash revenues were up 9% compared with Q4 2024. The increase in Cash revenues is mainly driven by stronger cash collections from secured and unsecured. Cash revenues for the year was also up with 9% versus the previous year.

Cash EBITDA for the fourth quarter was up 15% compared with the same quarter last year on a comparable basis. Cash EBITDA for the full year was up 12% on a comparable basis.

The comparable Cash margin was up with 3.9 percentage points in the fourth quarter compared with the same quarter last year, and up 2.4 percentage points for the full year.

# Reported revenues and EBIT

## Revenues

Comparable revenues were up 7% compared with Q4 2024. Revenues from NPLs were up 10% due to an increase in unsecured ERC and strong unsecured collections.

Revaluation in Q4 was NOK -79m. This includes a negative revaluation on unsecured portfolios of NOK 70m of which NOK 64m relates to a put back with neutral effect on revenues. Revaluation on secured portfolios was NOK -9m. This was driven by overperformance and early collections. Although reported as a revaluation in accounting terms, this is effectively an amortisation due to claims collected earlier than expected and consequently, removed from future ERC.

## Refinancing extend maturity profile and reduce interest cost

Interest costs and commitment fees decreased from NOK 184m in Q4 2024 to NOK 173m in Q4 2025 mainly related to refinancing of bonds at better terms. At the end of the quarter, the interest rate hedge ratio was 69% of net debt with a duration around 2.5 years.

In January, the Group completed a tap issue of EUR 200m in Bond 2031 at a price of 100.125% to par which indicates a credit spread of 3.22%. The proceeds were used to buy back EUR 150m in Bond 2029 and EUR 50m in repayment of RCF.

The liquidity reserve was around EUR 400m<sup>1</sup> in addition to operational cash flow.

# Notes to the interim condensed consolidated financial statements

## Note 1 – General information and basis for preparation

B2 Impact ASA (the Company or Parent) and its subsidiaries (together the Group) is a debt solutions provider specialised in investing in, and the collection of, non-performing debt portfolios in addition to providing third-party debt collection services. B2 Impact ASA is a public limited liability company, incorporated and domiciled in Norway. The Company's registered office is at Cort Adelers gate 30, 0254 Oslo, Norway. The interim condensed consolidated financial statements consist of the Group and the Group's interests in associated parties and joint ventures.

As a result of rounding differences, numbers or percentages may not add up to the total.

These interim condensed consolidated financial statements (interim report) for the fourth quarter ending 31 December 2025 have been prepared in accordance with IAS 34 Interim Financial Reporting. The interim report does not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual consolidated financial statement for 2024. The annual consolidated financial statements for 2024 are available at the company's website ([www.b2-impact.com](http://www.b2-impact.com)).

The accounting policies applied in the preparation of the interim report are consistent with those followed in the preparation of the Group's annual financial statements for the year ended 31 December 2024.

The interim condensed consolidated financial statements for the quarters ending 31 December 2025 and 31 December 2024 are unaudited. The 2024 audited financial statements were approved at the Annual General Meeting of the Company held on 22 May 2025

## Note 2 – Estimates and critical accounting judgements

The preparation of the interim condensed consolidated financial statements requires the use of evaluations, estimates and assumptions that affect the application of the accounting principles and amounts recognised as assets, liabilities, income, and expenses. A description of the accounting policies, significant estimates, and areas where judgement is applied by the Group can be found in note 2 and note 3 of the consolidated financial statement for 2024. In this quarterly interim condensed consolidated financial statement, the accounting policies, significant estimates, and areas where judgement is applied by the Group are in conformity with those described in the annual report.

## Note 3 – Segment reporting

The Group applies IFRS 8 Operating Segments. An operating segment is a part of the Group from which it can generate income and incur expenses, for which separate financial information is available, and whose results are regularly reviewed by the Chief Operating Decision Maker (CODM) to make decisions about resources to be allocated. The Group CEO has been identified as CODM.

Investments consist of the purchase and management of unsecured and secured loan portfolios directly or through investments in joint ventures. Repossessed assets acquired as part of the recovery strategy are included in Investments.

Servicing is the collections of payments on behalf of the Investment segment, joint ventures and clients. The Servicing segment generates revenues from commissions and debtor fees.

No operating segments have been aggregated to form the above reportable operating segments.

Internal transactions between Investments and Servicing segment are priced on commercial terms. The commission is recognised as inter segment revenue in Servicing and as direct operating expense in Investments. Inter segment revenues and costs are eliminated upon consolidation and reflected as Unallocated items & eliminations in the segment reporting.

Revenues from issued consumer loans (loan receivable), credit information and other services on behalf of clients are assessed to be not reportable operating segments and included in Other in the segment reporting.

IT and SG&A are considered supporting segments, where SG&A includes sales, general and administrative expenses, e.g., Human Resources, Finance, Communication and Marketing, Legal and Compliance and other staff functions. Other items included in Unallocated items & eliminations include non-recurring items.

**Net credit gain/loss from purchased portfolios**

The Group purchases materially impaired loan portfolios at significant discounts and as such impairments are already included at purchase. The expected credit loss for the purchased loan portfolios is not explicitly recognised as a loss provision since these financial assets are credit impaired by definition and the estimated loss is already part of the amortised cost. The Group's exposure to credit risk from the purchased loan portfolios is related to actual collections deviating from collection estimates, as well as from changes in future collection estimates. The Group regularly evaluates the current collection estimates on single portfolios and the estimate is adjusted if collections are determined to deviate from current estimate over time. The adjusted collection estimate is discounted by the initial rate of return at acquisition of the portfolio. Changes from current estimate adjust the book value of the portfolio and are included in the income statement in the line item "Net credit gain/(loss) from purchased loan portfolios". The portfolios are evaluated quarterly. Collections above collection estimates and upward adjustments of future collections estimates increase revenue. Collections below collection estimates and downward adjustments of future collection estimates decrease revenue.

**Note 5 – Financial instruments**

All figures in NOK million unless otherwise stated

Please refer to note 4 for specific disclosures regarding purchased loan portfolios.

**Financial risk**

The strategy of the Group is to manage and limit both currency and interest rate risk. The Group holds various derivative financial instruments with the purpose of reducing its interest rate exposure and achieving a suitable currency ratio between its assets and liabilities.

The changes in fair value of the designated hedging instruments (interest swaps and interest caps) are reported in Other Comprehensive Income. Changes in carrying amount of net investment hedge instruments as a result of foreign currency movements are also reported in Other Comprehensive Income. These amounts are reclassified to the income statement when the hedged transaction affects profit and loss and is presented on the same line as the hedged transaction.

Please refer to the Risk Management section in the Group's 2024 Annual Report and Group financial statement note 4.2 for further information.

The Group is financed by a combination of multi-currency Revolving Credit Facility (RCF) and Bond loans. At quarter end EUR 284 million was utilised from the EUR 610 million RCF leaving total available undrawn facility lines of EUR 326 million.

The Group's loan agreements have several operational and financial covenants, including limits on certain key indicators, which have all been complied with at quarter end.

For more information about the Group's financing, please refer to note 24 in the Group's consolidated financial statement 2024.

Note 7 – Share Capital and other paid-in capital

Ordinary shares have a nominal value of NOK 0.10 each. The number and value of authorised and registered shares, and the amount of other paid-in capital, being the premium on shares issued less any transaction costs of new shares issued, was as follows:

	Number of shares	Share capital NOK million	Other paid-in capital NOK million
At 31 December 2024	368 532 152	37	2 844
Capital increase registered on 15 August 2025 related to issuance of new shares	1 195 000	0	5
At 31 Dec 2025	369 727 152	37	2 849

A dividend of 1.5 NOK per share for 2024 was distributed 2 June 2025.

Note 8 – Share based payments

During the year, 7 416 668 share options have been settled, reducing the equity by approximately MNOK 50.

At the date of these interim financial statements there are 3 976 666 share options outstanding.

## Alternative performance measures

The interim financial information of the Group has been prepared in accordance with International Financial Reporting Standards (IFRS® Accounting Standards) and interpretations issued by the IFRS Interpretations Committee (IFRS IC) applicable to companies reporting under IFRS. The Group presents alternative performance measures (APMs) which do not have any standardised meaning prescribed by IFRS and therefore are unlikely to be comparable to the calculation of similar measures used by other companies.

The APMs are regularly reviewed by Management and their aim is to enhance stakeholders' understanding of the Group's performance and to enhance comparability between financial periods. The APMs are reported in addition to but are not substitutes for the financial statements prepared in accordance with IFRS.

The APMs provide a basis to evaluate operating profitability and performance trends, excluding the impact of items which in the opinion of Management, distort the evaluation of the performance of the operations. The APMs also provide measures commonly reported and widely used by investors as an indicator of the Group's operating performance and as a valuation metric of debt purchasing companies. Furthermore, APMs are also relevant when assessing the ability to incur and service debt.

APMs are defined consistently over time and are based on the financial data presented in accordance with IFRS.
