EUROBATTERY MINERALS CEO CONDUCTS A SIT-DOWN INTERVIEW WITH FINWIRE MEDIA IN CONJUNCTION WITH THE ONGOING RIGHTS ISSUE

Stockholm, 27 August 2025 - Eurobattery Minerals AB (Nordic Growth Market: "BAT" and Börse Stuttgart: "EBM"; in short: "Eurobattery Minerals" or the "Company") announced on July 14, 2025, the board's proposal for an extraordinary general meeting on August 14, 2025, to carry out a rights issue of units of approximately SEK 78.5 million (the "Rights Issue"). The extraordinary general meeting on August 14, 2025, resolved to carry out the Rights Issue in accordance with the board's proposal. Eurobattery Minerals can today announce that the Company's CEO, Roberto García Martínez, has recently had a sit-down interview with Finwire Media, where he discusses the Company's growth strategy, key projects like the San Juan tungsten mine, and why the Rights Issue represents a pivotal step toward securing Europe's independence in critical raw materials. The subscription period for the Rights Issue runs from and including August 25, 2025, up to and including September 8, 2025. Please note that certain nominees, banks and custodians may have an earlier response deadline for subscription of units in the Rights Issue. Shareholders with nominee-registered holdings are therefore advised to check with their nominee, bank or custodian if they have an earlier response deadline.

In the interview, the CEO emphasized that the Rights Issue is a decisive step toward transforming Eurobattery Minerals into a revenue-generating company. He outlined how the proceeds will accelerate the San Juan wolfram project in Spain, including drilling campaigns, plant capacity expansion, and hopefully increasing ore reserves, as well as completing the bankable feasibility study for the Hautalampi project in Finland. The discussion also highlighted the Company's commitment to securing a European supply of critical raw materials – from Europe, for Europe – while adhering to the highest environmental and social standards. With a clear roadmap and strong market fundamentals driven by the green energy transition, the CEO expressed confidence that Eurobattery Minerals is well-positioned for growth and long-term value creation for its shareholders.
