CoreTherm® -order from a new customer in Västra Götaland

ProstaLund has today received orders for consumables for CoreTherm® for the urology clinic at Uddevalla Hospital

A couple of weeks ago, ProstaLund signed a framework agreement with the Västra Götaland region (VGR) regarding CoreTherm® disposables for heat treatment of benign prostate enlargement.

Today, ProstaLund has received a first order from Uddevalla Hospital for equipment for CoreTherm® treatments. The urology clinic at Uddevalla Hospital will thus be the third clinic in the Västra Götaland region to offer CoreTherm® treatments. Treatments are already performed at the Urology Clinic at Skaraborg Hospital Skövde and the Urologist Clinic at Alingsås Hospital.

"For over 500 BPH patients awaiting surgery in Västra Götaland, it is very gratifying that there is now another clinic where they can be cured. We warmly welcome the urologists in Uddevalla to the CoreTherm® family ", says acting CEO Johan Wennerholm in a comment.

Some staff at the urology clinic are already certified CoreTherm® users, other staff will be trained after Easter and the clinic expects to book the first patients in early May.
