Q3 report

July – September 2026

This report is published by Enity Bank Group AB (publ), which has issued listed debt instruments. It should not be mistaken for the report for Enity Holding AB (publ), whose shares are listed on Nasdaq Stockholm.

July – September 2026

Q3 2026 summary Y/Y

- Net interest income increased by 11%, and the net interest margin was stable at 4.2%
- Lending grew by 11%, or 5% adjusted for currency effects
- Credit quality improved, and the credit loss ratio remained broadly stable
- Commission income up following the Uno acquisition, but under pressure Q/Q due to a slow market
- Strong profitability, adjusted return on tangible equity of 23% in the quarter, and 19% LTM
- CET1 ratio strengthened to 14.2%

Financial overview

Enity Bank Group AB ('the Bank', also referred to as 'the Parent Company'), corporate identity number 556717-5129, with its registered office in Stockholm, is a public limited banking company. The Group consists of the Bank and its wholly owned subsidiaries.

The Group is the Nordic region's leading specialist mortgage provider, with its main business focus on secured lending activities financed through equity, deposits from the public, and the issuance of covered, unsecured, and subordinated bonds. The Group operates in Sweden, Norway, and Finland, with banking operations in the latter two countries conducted through branches. The Group includes two mortgage brokers that operate in Norway and Finland.

All financial information is provided for the Group unless otherwise stated, while regulatory disclosures refer to the Consolidated Situation as reported to the Swedish Financial Supervisory Authority.

The Group presents its interim report for the quarter 1 July 2026 - 30 September 2026.

Group performance

Q3 2026 compared to Q3 2025

Operating profit

Operating profit increased by 14% to SEK 157m (137), total income increased by 28% and total expenses by 33%. The increased profit was due to higher lending, good cost control and the consolidation of the remaining 50.4% of Uno Finans in March.

Net interest income

Net interest income increased by 11% to SEK 342m (308). Loan growth in all markets and a stronger NOK contributed positively to net interest income. The net interest margin was stable at 4.2% (4.1).

Other income

Net commission income increased strongly to SEK 63m (13), related to the consolidation of the loan broker Uno Finans in March 2026.

Net gains/losses on financial transactions amounted to SEK -3m (-9), mainly due to a decrease in the fair value of bonds in the liquidity reserve following an increase in interest rates during the quarter.

Operating expenses

Operating expenses were higher at SEK 222m (167), due to the consolidation of Uno Finans in March 2026.

Operating expenses adjusted for items affecting comparability amounted to SEK 206m (146). Adjustment items in the quarter amounted to SEK 16m (21). For further information see page 37.

Adjusted C/I ratio excluding loan brokers amounted to 41% (46%).

Employees

Number of employees amounted to 359 (275) at period end. The increase was mainly due to the acquisition of Uno Finans.

Credit losses

Credit losses increased to SEK 26m (11), resulting in a credit loss ratio of 0.31% (0.26) over the last twelve months. This reflected softer property markets, longer property sale times and consequently higher write-offs. Over time the ratio is expected to gradually decrease.

The share of loans in stage 3 decreased to 6.9% (7.2). The share of stage 2 loans decreased in all countries and amounted to 8.0% (8.7). For further information see Note 3 "Credit losses".

Tax

The tax for the quarter amounted to SEK 33m (25), corresponding to a tax rate of 21% (18). The Group's effective tax rate is mainly influenced by differences in national tax rates. However, translation differences of foreign operations can give rise to timing differences impacting income tax, but with a corresponding tax amount reported under the statement of other comprehensive income.

Net profit

Net profit increased by 10% to SEK 123m (112).

Q3 2026 compared to Q2 2026

Operating profit

Operating profit for the period decreased by 2% to SEK 157m (160), due to weaker commission income in the loan broker segment and lower net gains and losses. Net interest income rose. Adjusted operating profit was SEK 173m (176), with items affecting comparability of SEK 16m (16).

Net interest income

Net interest income increased by 2% to SEK 342m (334), mainly due to loan growth in all markets. Average NOK in the quarter was slightly higher and contributed to higher net interest income. The net interest margin was flat at 4.2%, slightly negatively affected by a higher NOK rate at the end of the quarter.

Other income

Net commission income, which relates to the loan broker segment, decreased to SEK 63m (73) due to weaker market conditions.

Net gains/losses on financial transactions amounted to SEK -3m (8), mainly due to a decrease in the fair value of bonds in the liquidity reserve following an increase in interest rates during the quarter.

Operating expenses

Operating expenses decreased to SEK 222m (238) due to seasonally lower personnel costs in Sweden, because of employees' summer holidays.

Items affecting comparability amounted to SEK 16m (15), related to amortisation of surplus value from previous acquisitions. Operating expenses adjusted for items affecting comparability for the period amounted to SEK 206m (223). For further information see page 37.

Adjusted C/I ratio excluding loan brokers amounted to 41% (45).

Credit losses

Credit losses increased to SEK 26m (22). The credit loss ratio was 0.31% (0.27) over the last twelve months. The share of loans in stage 3 decreased to 6.9% (7.0). The share of stage 2 loans increased to 8.0% (7.3) from the seasonally low level in the second quarter but remained below the levels recorded in the earlier quarters, consistent with the overall downward trend. For further information see Note 3 "Credit losses".

Tax

Tax expense for the period amounted to SEK 33m (38), corresponding to a tax rate of 21% (23). The Group's effective tax rate is mainly influenced by differences in national tax rates. Translation differences of foreign operations can give rise to timing differences impacting income tax, but with a corresponding tax amount reported under the statement of other comprehensive income.

Net profit

Net profit increased by 1% to SEK 123m (122).

Financial position

As of 30 September 2026, compared with 31 December 2025.

Lending

Lending to the public at the end of September amounted to SEK 33,838m (30,611). Norway accounted for 55%, Sweden for 38%, and Finland for 7%.

Funding

The Group’s strategy includes a well-diversified funding structure, focused on deposits from the public as well as covered and unsecured bonds.

At period end, the Group’s funding sources consisted of equity, subordinated capital instruments (AT1 and T2 bonds), deposits from the public in Sweden, Norway and Germany, covered bonds and senior unsecured bonds. During the quarter, senior unsecured bonds of SEK 150m and NOK 400m were issued. In addition to this, a covered bond transaction of SEK 1,250m has been completed, with settlement in early October. In conjunction with said transaction, a repurchase of SEK 1,014m of an outstanding covered bond was also completed.

Total deposits from the public amounted to SEK 27,471m (24,517) at period end. Deposits in NOK amounted to SEK 15,038m (13,440) and deposits in EUR to SEK 3,678m (2,779).

Deposit products in all countries are covered by the Swedish government deposit guarantee, which amounts to SEK 1,150,000. In Norway, amounts exceeding the Swedish deposit guarantee are also covered by the Norwegian deposit guarantee, which amounts to NOK 2,000,000 via the Norwegian Banks' Guarantee Fund.

At period end, a nominal volume of SEK 4,700m (5,200) of covered bonds was outstanding. Net proceeds from the completed transaction of SEK 1,250 and repurchase of SEK 1,014m respectively, will be received early in the fourth quarter. Later in the fourth quarter a maturity of SEK 986m will come due. The nominal volume of senior unsecured bonds amounted to SEK 2,300m (2,300) and NOK 1,000m (200) respectively. Outstanding nominal volume of Tier 2 capital instruments (“T2”) amounted to SEK 300m (300) and NOK 60m (60) respectively.

Liquidity reserve

The Group’s liquidity reserve amounted to SEK 4,708 (3,986) at period end, distributed as follows:

- SEK 1,906m (656) was placed with central banks.
- SEK 1,115m (1,732) was placed with credit institutions.
- SEK 1,687m (1,598) was placed in Swedish, Norwegian, Finnish and German government, municipal and covered bonds.

The Liquidity Coverage Ratio (“LCR”) in the Consolidated Situation amounted to 185.2% (442.5%) at period end. The Net Stable Funding Ratio (“NSFR”) amounted to 121.2% (124.4%). Both LCR and NSFR exceeded regulatory requirements by a wide margin.

Cash flow

Cash flow was stable during the period and reflects ongoing operating and funding activities, including the acquisition of the remaining shares in Uno Finans AS.

Capital adequacy

The consolidated situation’s common Equity Tier 1 capital ratio (“CET1”) amounted to 14.2%, an increase of 0.3 percentage points from year-end 2025 and an improvement from the level reported in the first quarter following the acquisition of Uno Finans. At the end of the quarter, Enity’s capital position was within its CET1 financial target. As a result, the CET1 capital as from Q3 includes a deduction for expected dividend. The CET1 requirement, including Pillar 1, P2R and the combined buffer requirement, amounted to 12.2%. The total capital ratio was 17.7% (17.2%), compared with a requirement of 16.1%.

The CET1 capital amounted to SEK 2,306m (2,358). Total own funds were SEK 2,873m (2,924). See Note 6 for further information.

Credit rating

The Bank’s credit rating (long-term issuer rating by Moody’s) is Baa1, negative outlook since April 2026.

The Bank’s covered bonds have a rating of Aa1 by Moody’s.

Other significant events

Events during the quarter

External market developments

Geopolitical uncertainty remained elevated during the quarter. The conflict in the Middle East continued to put upward pressure on energy prices and inflation, weighing on consumer sentiment.

Housing market developments varied across the Nordic countries during the quarter. House prices increased in Sweden and were broadly unchanged in Norway, although regional differences remained significant, while the Finnish housing market continued to be weaker. Overall market conditions continued to be influenced by economic uncertainty and household affordability.

In response to persistent inflation pressures, Norges Bank and the ECB raised their policy rates by 0.25 percentage points during the quarter, to 4.50% and 2.50%, respectively. Both central banks maintained a data-dependent approach, with Norges Bank indicating that further tightening could be required. In Sweden, inflation remained comparatively low, allowing the Riksbank to keep its policy rate unchanged at 1.75%, while noting continued risks from higher energy prices and exchange-rate developments.

Events during the first nine months

Acquisition of Uno Finans AS

The Bank completed the acquisition of the remaining 50.4% of the shares in Uno Finans AS, resulting in the company becoming a wholly owned subsidiary as of 23 February 2026. The transaction was completed on market-based terms in line with an agreement entered in 2023 as previously communicated. The total purchase consideration, including previously held shares, amounted to SEK 578m. In connection with the transaction, the Group's previously held interest in Uno Finans AS was revalued to fair value, resulting in a revaluation gain recognised in profit or loss in the first quarter of 2026 amounting to SEK 116m. See Note 9 for details.

Changes in the senior management team

Frank Pedersen assumed the position of Chief Legal Officer (CLO) and joined the SMT on 1 September, succeeding Christian Marker, who left Enity in June. Anna Fogelström, Chief Information Officer (CIO), and Christer Pettersson, Chief Customer Acquisition Officer, left Enity in September. Erik Walberg Olstad, Chief Commercial Officer and member of the SMT, assumed responsibility for customer acquisition. Martin Kedbäck, Head of Business Transformation since 2023, was appointed Interim CIO and member of the SMT. From 1 September the Chief Risk Officer and Head of Compliance participate in the SMT as adjunct members to provide independent perspectives and challenge decision-making.

Significant events and other information after the end of the period

The Board of Directors has initiated a strategic review of the Group's ownership in its broker businesses, focusing on capital allocation and long-term shareholder value. The main consideration is whether the capital allocated to these businesses could generate higher returns elsewhere in the Group. The review is ongoing and includes a potential divestment. No decisions have been made.

No other significant events affecting the Group's income statement or balance sheet have occurred after 30 September 2026.

Segment information

The Group's operations are organised into different geographic segments for the banking operations and the separate broker business, that form the basis for the internal reporting structure. These segments are evaluated and monitored by the Chief Executive Officer to optimise resource allocation and analyse the Group's results.

The Group's banking operations are reported across three operating segments: Sweden, Norway and Finland. The Group also reports a Brokers segment, comprising loan brokerage operations, and an "Other" segment, which includes IFRS-related adjustments, head office and treasury related transactions and wind-down activities.

Sweden

In Sweden Enity offers mortgages for home purchases, refinancing, second-lien top-ups and green mortgages, as well as solutions for co-buyers, down-payment financing and customers aged 60+ seeking to release home equity. Enity also offers deposit accounts.

Norway

In Norway Enity offers mortgages for home purchases, refinancing and second-lien top-ups, tailored to customers' needs across different life situations. Enity also offers deposit accounts.

Finland

In Finland Enity offers residential property-backed loans for home purchases, refinancing and top-ups, tailored to Finnish customers' needs. EUR deposit accounts are offered in Germany through Raisin and included in the Finnish segment.

Loan brokers

Enity operates loan broker businesses through its wholly owned subsidiaries Uno Finans and Eiendomsfinans. Uno Finans operates in Norway and Finland and distributes a broad range of loan products, including mortgages and other secured and unsecured lending solutions, tailored to customers' different financial needs. Eiendomsfinans operates in Norway and focuses exclusively on distributing mortgage loans secured by residential property. The loan broker segment serves as an important distribution channel for the Group by connecting customers with suitable financing solutions.

The Group is reviewing its ownership in these businesses, focusing on capital allocation and long-term shareholder value. See "Significant events and other information after the end of the period".

Segment revenues and results

Operating profit and operating profit adjusted for items affecting comparability are performance measures reported to the chief operating decision maker as a basis for resource allocation and assessment of the segments' performance. In addition, several other key performance indicators (KPIs) are reported to support analysis and follow-up of the operations.

Material risks and uncertainties

The Group is exposed to a range of risks, including material risks such as credit risk, market risk, operational risk and regulatory risk. These are managed and mitigated through robust internal controls, risk management frameworks and strategic planning. However, certain risk factors such as external events and macroeconomic developments remain beyond the Group's direct control. In particular, changes in macroeconomic conditions, including fluctuations in GDP, changes in inflation, unemployment levels and central bank policy rates, may affect the Group's profitability, lending activity and overall risk exposure.

The Group does not have a trading book, actively hedges its interest rate risks and holds a liquidity reserve with stable counterparties that have a strong credit rating.

Cybersecurity continues to represent an area of increasing risk globally and remains a key focus area for the Group.

The Group's risk management framework is governed by the Risk Management Policy adopted by the Board of Directors.

A detailed description of the Group's risks, risk exposure and risk management can be found in Enity's Annual & Sustainability Report for 2025, pages 8-9, 17-18, 21-36, 50-51 and Note 2. No significant risks have been identified beyond those described in the Annual & Sustainability Report and in this report.

Capital management

Capital management is integrated into strategic planning and the Internal Capital and Liquidity Assessment Process ("ICLAAP"). Through capital management, adequate capitalisation, an appropriate composition of own funds from a loss-absorption and cost perspective, efficient capital usage and effective capital planning are ensured. This supports achieving set targets, desired results, maintaining financial strength and continuity, maintaining sufficient liquidity to meet commitments, and protecting the Group's brands and reputation.

The Group's capital management framework is governed by the Capital Management Policy, adopted by the Board.

The Risk Management function monitors capital requirements and capital adequacy against set risk limits and reports the outcome monthly to the Board and CEO.

For further information on risk and capital management, see Note 6 "Capital adequacy analysis" in this report. The 2025 Annual Report for Enity Bank Group and periodic information on risk management, capital adequacy and liquidity are published on www.enity.com.

Note 1. Accounting policies

This report has been prepared in accordance with IAS 34, Interim Financial Reporting.

The accounting policies and calculation methods described in Note 1 of the 2025 Annual Report are applied in this report.

The consolidated financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS") as adopted by the EU and the Swedish Financial Supervisory Authority's regulations and general guidelines, FFFS 2008:25. The Group also applies RFR 1 Supplementary Accounting Rules for Groups, related interpretations issued by the Swedish Financial Reporting Board, as well as the Swedish Annual Accounts Act for Credit Institutions and Securities Companies ("ÅRKL").

The Parent Company applies the Swedish Annual Accounts Act (1995:1554) and recommendation RFR 2 Accounting for Legal Entities, issued by the Swedish Financial Reporting Board.

Changes in accounting policies due to new or amended IFRS

There are no changes to IFRS standards and interpretations that have been assessed to have any material monetary impact on the Group's financial statements.

New and amended standards and interpretations not yet effective. Presentation and disclosures in financial statements (IFRS 18)

IFRS 18 Presentation and Disclosure in Financial Statements will replace IAS 1 and is effective for annual reporting periods beginning on or after 1 January 2027. The standard introduces new requirements related to the structure of the income statement, including the classification of income and expenses into defined operating, investing and financing categories, as well as enhanced disclosure requirements relating to management-defined performance measures. Early application is permitted; however, the Group does not intend to apply the standard early.

The Group has performed a preliminary assessment of the expected impact of IFRS 18 based on its current operations and business model, which primarily comprise the provision of mortgage financing to customers, funded mainly through customer deposits. In accordance with IFRS 18, the Group is expected to qualify as an entity with a specified main business activity of providing financing to customers. As a result, interest income and interest expense arising from lending and deposit-taking activities are expected to be classified within operating activities in the income statement.

Based on the preliminary assessment, IFRS 18 is expected to result primarily in changes to the presentation and disclosure of information in the financial statements, particularly in the structure of the income statement and related note disclosures. At this stage, no material impact on the Group's financial performance, financial position or cash flows is expected.

Note 2. Operating segments

Operating segment reporting is based on the Group's accounting policies, organisation and internal reporting. For cross-border services, invoicing and allocation are conducted in accordance with the OECD's transfer pricing guidelines. The banking operations in Norway and Finland are conducted through the branches, and the brokerage business is classified as a separate segment.

The Other segment includes Group-wide costs not attributable to segments (e.g., hedging, currency effects, and listing-related costs for the prior period), run-off portfolios and certain Group-level IFRS adjustments.

Note 3. Credit losses

Underlying credit quality in the Group's loan portfolio remains sound, with stable development across all three markets - Sweden, Finland and Norway. Against the backdrop of the prevailing external environment and uncertainty regarding the pace of economic recovery, the Group maintains a cautious stance in its risk management, adapted to current market conditions. The Group continues to apply a prudent and disciplined credit risk strategy, and no systemic risks have been identified.

Period July – September

Credit losses increased to SEK 25,6 (11,5) for the current quarter compared to the same quarter last year. The LTM credit loss ratio was at 0.31% (0.26%). Compared with the same quarter last year, the share of loans in stage 3 decreased to 6.9% (7.2%), while the share of loans in stage 2 decreased across all three countries to 8.0% (8.7%).

Note 5. Fair value measurement

Financial instruments recognised at fair value

The Group's financial assets and liabilities are measured at fair value through profit or loss or at amortised cost. All derivative contracts in assets and liabilities measured at fair value are entered into to hedge interest rate or currency risks in the Group's operations, and all interest-bearing securities are included in the Group's liquidity portfolio.

All financial assets and liabilities measured at fair value are classified in a fair value hierarchy. This hierarchy reflects how observable the prices or other information used in the valuation techniques are. In level 1, quoted prices that are readily and regularly available from multiple price sources and represent actual and frequent transactions are used. Government securities and other actively traded interest-bearing securities are found here. In level 2, valuation models based on observable market quotations are used, as well as instruments measured at quoted prices where the market is deemed less active. Interest rate and currency derivatives are found at this level. Level 3 refers to financial instruments not traded in an active market and where valuation models are used in which significant inputs are based on unobservable data. At this level are equity-release loans that are part of lending to the public. No financial instruments were transferred between the levels in the fair value hierarchy during the period.

Sensitivity analysis for lending to the public measured at fair value in level 3

The Group has performed a sensitivity analysis of lending to the public measured at fair value, classified within Level 3 of the fair value hierarchy. The analysis illustrates the impact of changes in significant unobservable inputs used in the valuation models: parallel shift of the yield curve by +1 percentage point and - 1 percentage point; decrease and increase in the house price index by 10 percentage points.

The sensitivity analysis is based on hypothetical changes in key assumptions and does not represent management's expectations of future market developments. The scenarios are applied independently and assume all other variables remain constant.

The effect of these changes on fair value is disclosed in the table below.

Changing assumptions	2026-09-30	2025-09-30	2025-12-31
+1 percentage	-3,3	-3,9	-6,4
-1 percentage	0,1	-0,7	0,5
-10 percentage point	-14,6	-5,0	-7,6
+10 percentage point	0,0	-0,7	0,5

Disclosure of fair value

For lending to credit institutions, the carrying amount is considered a good approximation of fair value as the item has variable interest and insignificant loss risk, which means it is not subject to significant changes in value. Any currency change is recognised continuously in the income statement.

The fair value of lending to the public amounts to SEK 34081m (32,397).

The value of lending to the public has been calculated based on observable market data by discounting expected future cash flows of the assets to present value using a discount factor. The expected future cash flows have been based on the size of the portfolio at the balance sheet date, and an expected future cash flow considers historical cash flows, type and nominal amount of receivables and experience with similar assets.

For all other financial instruments with short maturities, the carrying amount is considered a good approximation of fair value as the discounted value does not produce a noticeable effect.

Note 6. Capital adequacy analysis

The disclosure of capital adequacy information meets the disclosure requirements in accordance with the Swedish Annual Accounts Act (1995:1559) for credit institutions and securities companies, the Swedish Financial Supervisory Authority's regulations and general guidelines (FFFS 2008:25) on annual reports in credit institutions and securities companies, the Swedish Financial Supervisory Authority's regulations (FFFS 2014:12) on supervisory requirements and capital buffers, Regulation (EU) No 575/2013 of the European Parliament and of the Council on prudential requirements for credit institutions and amending Regulation (EU) No 648/2012 ("CRR"), and Commission Implementing Regulation (EU) 2021/637 laying down implementing technical standards with regard to institutions' public disclosures of the information referred to in Part Eight, Titles II and III of Regulation (EU) No 575/2013 of the European Parliament and of the Council.

This note provides information on the Consolidated Situation. For more information on ownership and legal structure, see the section "Financial overview".

The Bank has prior permission from the Swedish Financial Supervisory Authority to include interim profits in Common Equity Tier 1 capital in accordance with Article 26.2 of the CRR. The report on risk and capital management in accordance with Pillar III disclosure requirements is published on www.enity.com.

Risk-based capital requirement

The risk-based capital requirement is calculated in accordance with the CRR, Swedish laws and the Swedish Financial Supervisory Authority's regulations and general guidelines. The risk-based capital requirement consists of minimum requirements in the form of Pillar 1, Pillar 2 requirements (Pillar 2 Requirement "P2R") and the combined buffer requirement. Below is an overview of the methods used to calculate the risk-based capital requirement.

Pillar 1 capital requirement: The Pillar 1 capital requirement consists of credit risk (including counterparty risk), market risk, credit valuation adjustment risk and operational risk.

Counterparty risk is calculated using the Original Exposure Method, while other credit risk is based on the Standardised Approach. Credit valuation adjustment risk is calculated using the Simplified Approach and market risk using the Simplified Standardised Approach. The Pillar 1 capital requirement amounts to 8% of risk-weighted assets and at least 4.5% of risk-weighted assets must be covered by Common Equity Tier 1 capital.

Pillar 2 requirement: P2R is based on qualitative and quantitative assessment of material risks to determine whether additional capital is needed for risks not covered, or not adequately covered, by the Pillar 1 capital requirement. P2R for material risks is assessed using internal methods and methods from the Swedish Financial Supervisory Authority for concentration risk, interest rate risk and credit spread risk.

The total capital requirement for the Consolidated Situation is shown below:

Leverage ratio

The leverage ratio is calculated in accordance with the CRR, Swedish laws and the Swedish Financial Supervisory Authority's regulations and general guidelines. The minimum capital requirement and P2R for leverage ratio must be met with Tier 1 capital, while P2G for leverage ratio must be met with Common Equity Tier 1 capital. The leverage ratio is shown below.

General administrative expenses

General administrative expenses consist of brokerage costs for loans to Uno Finans AS, Uno Finans OY, Uno Score, Eiendomnsfinans AS and Eiendomsfinans Drift AS. These are capitalized under IFRS 9 using the effective interest method.

Acquisitions

During the first quarter of 2026, the Bank completed the acquisition of the remaining 50.4 per cent of the shares in Uno Finans AS, resulting in the company becoming a wholly owned subsidiary as of 23 February 2026. The transaction was completed in line with previously communicated intentions and on market-based terms. The total purchase consideration, including previously held shares, amounted to SEK 578 m. The transaction implies an enterprise value (Fair Value) of Uno Finans of approximately SEK 755 million at the acquisition date. In connection with the transaction, the Group's previously held interest in Uno Finans AS was remeasured to fair value, resulting in a remeasurement gain recognised in profit or loss in the first quarter of 2026 amounting to SEK 116m.

Transactions with key management personnel

One of the sellers in the acquisition of the remaining shares in Uno Finans AS was Rolf Stub, who is a member of the Board of Directors of Enity Holding and Enity Bank Group. The consideration paid amounted to approximately SEK 55 million, forming part of the total purchase consideration for the acquisition. The transaction was carried out on market-based terms, and Rolf Stub did not participate in the Board's deliberations or decisions relating to the transaction.

During the period, no other material transactions were conducted with key management personnel that are classified as related-party transactions under the applicable regulations for listed companies.

Note 8. Pledged assets, contingent liabilities and commitments

	Group		
SEKm	**30 Sep 2026**	**30 Sep 2025**	**31 Dec 2025**
Pledged assets and comparable securities for own liabilities			
Lending to credit institutions	77,0	29,7	72,3

Granted loans but not paid out	370,0	332,5	226,0
Acquisitions	-	-	62,2
Commitments to employees	-	22,8	10,5

Cash and balances at central banks

Reserved funds refer to the cash reserve requirement of the Bank of Finland and the Central Bank of Sweden.

Lending to the public

Refers to the registered cover pool for the benefit of holders of covered bonds issued by the Bank. The cover pool consists of loans granted against collateral primarily in single-family homes, holiday homes and tenant-owner apartments with loan-to-value within 80 percent of market value. In the event of the Group's insolvency, the holders of the covered bonds have preferential rights to the pledged assets.

Debt securities eligible for refinancing with central banks

Refers to collateral pledged for any arising negative balances on central bank accounts. Central bank accounts are used for clearing and settlement between banks. In cases where a payment obligation (negative balances) would not be fulfilled, the Central Bank of Sweden has the possibility to take the pledged securities in possession.

Granted loans not paid out

Refers to loan commitments that have been contractually granted to customers but not yet disbursed. These represent binding obligations to provide funds and are reported as off-balance sheet commitments until payout. The disclosed amount has been adjusted for prior periods to include both mortgage loans and equity release products for consistency.

Prior commitments regarding acquisitions

Enity entered a binding commitment to acquire the remaining shares in Uno Finans AS, where the company held 49,6%. The acquisition was concluded during the first quarter of 2026, in accordance with the shareholders' agreement.

Prior commitments regarding retention payments

In connection with the listing process during the second quarter of 2025, the Group agreed to retention payments for certain employees. These were conditional on specific terms, primarily continued employment over the agreed service period. No liability was recognised and the impact was expensed in the periods when conditions were met. All commitments were settled by the first quarter of 2026 and no new commitments exist.

Note 9. Business combinations

The remaining shares in Uno Finans AS were acquired on the 23rd of February 26. Refer disclosure under Note 7 and Significant Events during the period.

The acquisition has been accounted for in accordance with the acquisition method in IFRS 3 which is deemed to reflect the true nature of the acquisition. The transaction implies an enterprise value (Fair Value) of Uno Finans of approximately SEK 755 million at the acquisition date. Enity remeasured its previous interest to fair value and recognised SEK 116m as a profit in the income statement during the period. Acquisition costs amount to approximately SEK 2m.

Revenue and profit attributable to the acquired company

From the acquisition date up to and including 30 September, Uno Finans contributed external commission income of SEK 127m and a net income of SEK 31m. For Q3, Uno finans contributed external commission income of SEK 51m and a net income of SEK 7m.

Had the acquisition taken place on 1 January 2026, external commission income would have been SEK 47m higher, with an additional net income of SEK 13m for the period.

Acquisition Analysis	MSEK
Intangible Assets	30.3
Property, Plant and Equipment	0.5
Accounts Receivable and Other Receivables	25.9
Cash and Cash Equivalents	82.0
Accounts Payable and Other Liabilities	-49.5
Net Identifiable Assets and Liabilities	89.2
Purchase Consideration	755.6
Excess Value	666.4
Allocation of Excess Value	
Goodwill	439.4
Customer Relationships	228.4
Trademarks	74.2
Deferred Tax	-75.7
Total Excess Value	666.4

Goodwill

In connection with the purchase price allocation, excess values of SEK 666m were identified. Goodwill is considered to have an indefinite useful life and is attributable to expected future synergies. Trademarks are assessed to have an indefinite useful life and customer relationships are assessed to have a useful life of five years. Deferred tax has been recognised on trademarks and customer relationships.

Effect on the Group’s cash flow

A cash consideration of SEK 597m was paid on the acquisition date, while acquired cash amounted to SEK 86m. The effect on the Group’s cash flow therefore amounts to SEK 511m.

Comparative period

During the prior year, the remaining shares in Eiendomsfinans AS were acquired. For disclosure related to the acquisition, refer to the 2025 Annual Report of Enity Bank Group AB (publ).

Signature of the Chief Executive Officer and the Board

This interim report has not been subjected to an audit by the Company's auditors.

The CEO and the Board certify that the report provides a true and fair view of the Parent's and the Group's operations, their financial positions and earnings as well as describing significant risks and uncertainties facing the Parent and the Group.

Definitions of alternative performance measures

Adjusted C/I ratio (%)

Adjusted total operating expenses in relation to adjusted total operating income. Total opera
ting expenses are adjusted for items affecting comparability, amortisation of surplus values from acquisitions, impairment on intangible assets and restructuring costs. Total operating income is adjusted for items affecting comparability.

Used by management to assess the operational efficiency, after amortisations of surplus values from acquisitions (incl. goodwill) and after adjustments for items affecting comparability between periods.

Adjusted RoTE (%)

Adjusted operating profit less tax (tax rate 20.6%) in relation to average tangible equity. Tangible equity is calculated as total equity less goodwill and intangible assets relating to acquisitions. Average tangible equity is calculated as the average of the opening and closing balance each respective year / period end.

Used by management to assess the return generated in relation to the net assets excluding acquisition related surplus values such as goodwill and intangible assets relating to acquisitions.

Return on tangible equity (RoTE) %	**Q3 2026**	**Q3 2025**	**Q2 2026**	**Jan–Sep 2026**	**Jan–Sep 2025**	**Jan–Dec 2025**
