## SdipTech acquires UK-based Phase 3 Connectors

**SdipTech AB (publ) has acquired all shares in Phase 3 Connectors Ltd (Phase 3). The company designs, manufactures, and supplies high-quality single-pole power connectors for industrial and event sectors, meeting the highest standards of safety and performance for both UK and international markets. Phase 3 has an annual EBIT of approximately GBP 3 million.**

Founded in 2004, Phase 3 has become a leading provider of robust and reliable high-current power connectors. Operating from its headquarters in Liverpool, England, Phase 3 is renowned for its color-coded single-pole connector solutions, which ensure ease of use, enhanced safety, and operational efficiency. Phase 3 serves a wide range of applications, including live events, back-up power for data centres and other industrial power settings, making it a critical partner for industries requiring high-current power solutions.

“Phase 3’s exceptional reputation for delivering reliable, innovative, and safe high-power connector solutions aligns seamlessly with SdipTech’s mission to provide infrastructure technology that enhances safe electrification”, **says Bengt Lejdström, CEO at SdipTech.**

The global market for temporary high-current power connectors is expected to experience continued growth, driven by increasing demand for reliable and scalable power solutions in industries such as live entertainment, data centers and other industrial settings where back-up power is critical. Phase 3’s market dominance and innovative connectors place the company in an excellent position to benefit from these trends.

“As industries worldwide increasingly rely on secure and efficient power distribution, Phase 3 remains committed to delivering market-leading connectors that meet the highest standards of performance and safety. Joining forces with SdipTech provides an exciting opportunity to accelerate our international expansion and continue innovating in the power connector space”, adds **Andrew Glachan, Managing Director of Phase 3 Connectors.**

Phase 3 will become the fifteenth business unit in the United Kingdom under SdipTech and will be included in the business area Energy & Electrification as of February 2025.
