The increase of the share capital may be made through a new issue of class B shares, convertible bonds and/or warrants entitling to conversion or subscription of new shares. The board of directors may decide on such issue with deviation from the shareholders' preferential rights and/or with provision for cash payment or payment in kind, set-off or otherwise with conditions as referred to in Chapter 13, Section 5, paragraph 6 of the Swedish Companies Act (2005:551).

The board of directors or the person appointed by the board of directors is authorized to make the minor adjustments required for the registration of the resolution with the Swedish Companies Registration Office and Euroclear Sweden AB.

The purpose of the authorization and the reasons for any deviation from the shareholders' preferential rights or otherwise with conditions as set out above are that issues may be made for the purpose of carrying out or financing acquisitions of all or parts of other companies or businesses and to finance existing operations. C. Other matters relating to the incentive programs under A. - B. above

Majority requirements and voting

Since persons falling under Chapter 16, Section 2, Subsection 1, Item 2 of the Swedish Companies Act (2005:551) (the "**Companies Act**") are included in the group of persons entitled to subscribe, valid resolutions require that they have been supported by shareholders with at least nine-tenths (9/10) of both the votes cast and the shares represented at the general meeting.

Board members who hold shares in the Company may not vote on resolutions regarding the incentive program Qualified Employee Stock Option Program – Board of Directors Series 2026 to the extent the program concerns themselves, in accordance with the Swedish Securities Council's (Aktiemarknadens självregleringskommitté) rules on remuneration to senior executives and incentive programs.

Motives for the incentive scheme and its preparation

The motives, as well as reasons for deviation from the shareholders' preferential rights, for the incentive program are that a personal and long-term ownership commitment among employees and

consultants engaged in the Company can be expected to stimulate an increased interest in the business and the development of the results, increase motivation and the sense of belonging to the Company, and enable the Company to retain and attract the necessary competence. The board of directors believe that such an issue can be beneficial for the Company and its shareholders.

The proposals under A1. KPO Employees Series 2026 and B. TO Employees Series 2026 have been prepared by the board of directors in consultation with external advisors. The final proposals have been presented by the board of directors.

The proposals under A2. KPO Board of Directors Series 2026 have been prepared by a group of shareholders representing 49.47 percent of the votes in the Company at the time of issuance of the notice in consultation with external advisors. The final proposals have been presented by said group of shareholders.

Valuation

Entry into KPO Employees Series 2026 is free of charge. The value of an employee stock option will correspond to the difference between the quotient value per share and the share price of the share when exercised after the vesting period.

The proposal for the incentive program TO Employees Series 2026 signify that the subscriber participates on market terms. The price (premium) for the warrants shall be determined based on the established Black & Scholes valuation model, whereby the value is determined based on the share price, volatility, risk-free interest rate, time left to exercise, exercise price, etc. The calculation of the price (premium) will be performed by Option Partner.

Costs and dilution

According to the board of directors' assessment, the Company will not incur any costs for social security contributions in relation to the proposed incentive programs. The Company's costs are thus expected to consist of costs for implementation and practical management of the programs.

The incentive programs together comprise a maximum of 1,669,990 warrants and upon full exercise, a total of 1,669,990 new shares will be issued in the Company (subject to any recalculations in accordance with applicable terms and conditions). This corresponds to a dilution of the total number of shares in the Company as of the date of the notice by approximately 3.58 percent (based on the total number of shares after exercise).

Existing stock incentive programs

The Company's existing stock incentive programs are described on the Company's website www.beammwave.com/investors/aktier-och-optioner/, which together comprise 1,585,340 warrants and upon full exercise result in 1,585,340 new shares. This corresponds to a dilution of the total number of shares in the Company as of the notice date of approximately 3.40 percent (based on the total number of shares after exercise).

Majority requirement

For a resolution under items 13 and 14 to be valid, the resolution must be supported by shareholders representing at least two thirds (2/3) of both the votes cast and the shares represented at the meeting. For a resolution under item 15 to be valid, the resolution must be supported by shareholders holding at least nine tenths (9/10) of both the votes cast and the shares represented at the meeting.

Available documents

The annual report and the auditor's report will be available on the Company's website, www.beammwave.com and at the Company's office, for at least three weeks before the meeting. Full proposals for resolutions are included in the notice. The documents will be sent on request to shareholders who provide their postal address. The documents will also be available at the meeting.

Information at the meeting

The shareholders are informed of their right to request information in accordance with Chapter 7, Section 32 of the Swedish Companies Act regarding circumstances that may affect the assessment of an item on the agenda or the assessment of the Company's financial situation.
