The webcast will also be available on demand on Senzime's corporate website after the event.

About Senzime

Senzime is a Swedish medical device company that develops and markets CE- and FDA-cleared monitoring systems for patients undergoing anesthesia. Senzime's employees worldwide are committed to the vision of a world without anesthesia related complications. Six out of ten patients that wake up after surgery are not fully muscle recovered and therefor at risk having critical respiratory complications. The TetraGraph system helps anesthesia providers improve patient care and reduce healthcare costs by digitally and continuously measure the degree of neuromuscular blockade under and after surgery. Senzime operates in the worlds leading markets targeting a market opportunity valued in excess of SEK 15 billion per year. The company's shares are listed on Nasdaq Stockholms main market (ticker SEZI). www.senzime.com
