

New resolution plan for central counterparties as of 18 June

On 15 June, the Resolution Board decided on a new resolution plan for Nasdaq Clearing applying as of 18 June. Every year, the Swedish National Debt Office develops a resolution plan as preparation for being able to manage a central counterparty in crisis effectively.

The new resolution plan will apply as of 18 June. The Debt Office is to prepare a resolution plan for central counterparties each year, on which the Resolution Board then decides. In Sweden, there is one central counterparty, Nasdaq Clearing Aktiebolag.

The resolution plan describes, among other things, the strategies that the Debt Office intends to use in resolution as well as the Debt Office's assessment of the central counterparty's resolvability. The resolution plan is an important tool for being able to best carry out resolution if necessary.
