## Enea's initiates share repurchase program

**The Board of Directors has resolved to exercise the authorization granted by the Annual General Meeting 2025 for repurchase of own shares for an amount of up to SEK 50 million for the period up to and including the day before the Annual General Meeting 2026.**

At the Annual General Meeting in Enea on 6 May 2025, it was resolved to authorize the Board of Directors to resolve on acquisition and transfer of own ordinary shares. The Board of Directors has now resolved to exercise the authorization regarding repurchase of own ordinary shares for a new repurchase program. Repurchase of own ordinary shares will be carried out in accordance with the EU Market Abuse Regulation (MAR) and the EU Commission Delegated Regulation 2016/1052 (the so-called Safe Harbour Regulation). Repurchase of ordinary shares will be carried out by an investment firm or credit institution that makes its trading decisions independently of Enea as regards the timing of the repurchase of Enea's shares. Reporting of completed repurchases will be made in accordance with applicable rules.

The repurchase program is subject to the following terms and conditions:

- Repurchase shall take place on Nasdaq Stockholm in accordance with its rulebook for issuers and in accordance with MAR and the Safe Harbour Regulation.
- Repurchase may take place during the period from and including 21 July 2025 up to and including the day before the Annual General Meeting 2026.
- The number of shares that shall be repurchased may not result in that the company's shareholding after the repurchase exceeds 10 per cent of the total number of shares in the company.
- Repurchase may only be made at a price per share within the registered price interval at any given time, which refers to the interval between the current highest buying price and the lowest selling price on Nasdaq Stockholm.
- Payment for repurchased shares shall be made in cash and the aggregate amount that shall be paid for repurchased shares may amount to at the highest SEK 50 million.

The purpose of the repurchase program is to enable the company to adapt its capital structure to its capital needs over time and thereby contribute to an increased shareholder value. The current intention is that the repurchased shares will be withdrawn by resolution at upcoming general meetings.

As of today, the total number of shares in Enea amounts to 20,560,581, of which all are ordinary shares with 1 vote each. Enea currently holds 1,057,965 ordinary shares.
