

Intellego Technologies announces management changes – Henrik Resmark to assume additional role as CFO

Intellego Technologies AB ("Intellego") announces that Henrik Resmark, who will assume the role of Chief Operating Officer at the latest on 2 January 2026, will also take on the position of Chief Financial Officer (CFO), at the latest on 10 February 2026. Hans Denovan, currently CFO, will assume focusing on further strengthening Intellego's operations, future organization and infrastructure.

Henrik Resmark brings more than 25 years of experience in financial leadership and business development in public companies, most recently serving as CFO of Maximum Entertainment AB, listed on Nasdaq First North Growth Market. His extensive background in corporate finance, financial analysis, and business development across both private equity-owned and publicly listed companies will further strengthen Intellego's financial organization.

This organizational development is part of Intellego's ongoing efforts to optimize its executive structure and ensuring continued scalability and sound governance in line with its growth ambitions and increased communication with Intellego's shareholders which Henrik will focus on together with the company's new IR advisors.

"I have been following the company for the last year and as part of the onboarding process as COO I have already reviewed Intellego's sales processes, accounting, meet with the board and participated in meeting with the company's auditor which gives me a solid foundation to also assume the role as CFO. I am impressed of what Intellego has been able to build so far and with a significant amount of cash in the bank and a solid balance sheet I look forward to being a part of the expansive journey ahead", says Henrik Resmark.

"This change reflects our focus on building a scalable and efficient organization that supports Intellego's continued international expansion. Both Henrik and Hans bring extensive experience and will continue to contribute significantly to Intellego's success", says Claes Lindahl, CEO of Intellego Technologies.

About Us

Intellego Technologies develops and manufactures color indicators that show the effect of irradiation with, among other things, invisible ultraviolet light, UV light. Color indicators are used globally in, for example, the disinfection industry, the sunscreen industry, and the manufacturing industry. Intellego's indicators have been developed from the company's patented photochromic ink, which can be adapted to different wavelengths of light and various application areas across a range of different industries. Intellego Technologies was founded in 2011, is headquartered in Stockholm, and is listed on the Nasdaq First North Growth Market.

The company's Certified Adviser on the Nasdaq First North Growth Market Stockholm is Mangold Fondkommission AB.
