

OX2 has handed over a 27 MW wind farm in Italy

OX2 has handed over a 27 MW wind farm in Italy to Nuveen Infrastructure, one of the world's leading clean energy infrastructure managers. The wind farm that is located in Foggia province, in southern Italy, comprises of 6 turbines.

The wind farm is the first project OX2 has divested in Italy.

- The successful completion and handover of our first Italian project marks an important milestone in our relationship with Nuveen Infrastructure. We're proud to see this project generating clean energy for the region and look forward to our continued expansion in the Italian market across onshore wind, solar, and energy storage technologies, says Matthias Taft, CEO, OX2.

OX2 will be responsible for the technical and commercial management of the wind farm.

OX2 has a total of 9 projects under construction in 5 markets with a total installed capacity of 1.5 GW, and is responsible for the technical and commercial management of renewable assets with a total capacity of about 6.8 GW.
