Intea has carried out a directed issue of 16 million B-shares, raising proceeds of SEK 1,056 million

Intea Fastigheter AB (publ) ("Intea" or the "Company") has, in accordance with the Company's press release earlier today on May 21, 2025, completed an accelerated book building procedure and the Company's board of directors has resolved on a directed share issue of 16,000,000 B-shares at a subscription price of SEK 66.00 per B-share pursuant to the authorisation from the annual general meeting held on May 5, 2025 (the "Share Issue"). Through the Issue, Intea raises a total of SEK 1,056 million before transaction related costs.

The subscription price represents a discount of 4.7 percent to the closing price for the B-share on Nasdaq Stockholm on May 21, 2025 (SEK 69.25), a discount of 5.0 percent in relation to the volume weighted average price (VWAP) of the B-share during the last ten trading days (SEK 69.48) and a premium of 39.0 percent to EPRA NRV per ordinary A- and B-share in Intea, which amounted to SEK 47.47 as of March 31, 2025. Several Swedish and international institutional investors, including The Third Swedish National Pension Fund, The Fourth Swedish National Pension Fund, Brummer & Partners - Listed Real Estate Mandate, C WorldWide Asset Management and Clearance Capital Limited, participated in the Share Issue.

As a result of the great interest in the Share Issue and the excess demand following the announcement of the Share Issue, in relation to the previously communicated volume of approximately 15 million B shares, the Issue was increased to 16 million B shares.

Background and reasons

Intea's B-shares and D-shares were listed on Nasdaq Stockholm on December 12, 2024 (the "Listing"). In connection with the Listing, the Company carried out an offering of primarily new B-shares in an amount of SEK 2,000 million, which expanded and diversified Intea's shareholder base. Since the Listing, Intea has completed acquisitions totaling approximately SEK 755 million and added new projects within the justice category with an estimated total investment amount of approximately SEK 10.4 billion. In total, Intea's project volume as per today is estimated to approximately SEK 13.2 billion, of which approximately SEK 2.0 billion has been invested and the remaining part will be invested in projects that is estimated to be completed during the years 2025 – 2031. Intea estimates that these projects contribute to achieving the Company's financial targets of annual growth in long-

term net asset value and management profit per A- and B-share of at least 12 percent over time, while gradually increasing the quality of the property portfolio and lease structure.

Intea also sees other interesting business opportunities that would also contribute to the Company's growth targets, while the Company also must consider its financial risk limitations and credit rating in order to enable effective external borrowing that remains beneficial to both Intea and its shareholders. In order to be able to actively pursue business opportunities in the current market and at the same time maintain a flexible and balanced capital structure, the Company is exploring the conditions for carrying out the Share Issue.

Overall, the board of directors assesses that the Share Issue will be able to contribute to increased profit from property management, funds from operation and net asset value per A- and B-share within the next year.

Through the Share Issue, the shareholder base has been diversified and broadened, whereby the conditions for increased liquidity in Intea's B-share are expected to improve, which is considered beneficial for both existing and new shareholders in Intea and also for the Company.

Deviation from the shareholders' pre-emptive rights

Prior to the Share Issue, the Company's board of directors has made an overall assessment and carefully considered the possibility of raising capital through a new share issue with pre-emptive rights for the Company's shareholders.

The board of directors considers the reasons for deviating from the shareholders' pre-emptive rights are (i) to diversify and strengthen the Company's shareholder base with institutional investors in order to broaden the base of financially strong shareholders and strengthen the liquidity of the Company's B-shares, (ii) that a rights issue would take longer time to implement which, especially under current market conditions, would entail an exposure to potential market volatility, and (iii) that the speed of the process is considered to make it easier for the Company to actively pursue investment opportunities in the current market while at the same time maintaining a flexible and balanced capital structure. With the above considered, the board of directors has made the assessment that the reasons to carry out the Share Issue outweigh the reasons that justify the main rule of issuing shares with pre-emptive rights for existing shareholders and that the Share Issue is the most favourable alternative for the Company to carry out the capital raising.

Subscription price and number of shares

The subscription price and the number of new B-shares have been determined through an accelerated book building procedure by DNB Carnegie and Handelsbanken Markets (together the "Joint Bookrunners"). Since the subscription price in the Share Issue has been determined through this procedure, it is the board of director's assessment that the marketability of the subscription price has been ensured by reflecting prevailing market conditions and investor demand.

The Share Issue means that the total number of shares in the Company increases by 16,000,000, from 257,306,226 to 273,306,226, divided into 6,390,000 A-shares, 207,843,936 B-shares and 59,072,290 D-shares. The total number of votes increases by 1,600,000, from 31,481,622.6 to 33,081,622.6 and the share capital increases by SEK 1,777,777.79, from SEK 28,589,580.71 to SEK 30,367,358.50. The Share Issue entails a dilution effect of approximately 5.9 percent based on the total number of shares and approximately 4.8 percent based on the total number of votes in the Company after the Share Issue.

Lock-up

The Company has undertaken to, during a period of 180 calendar days after the settlement date of the Share Issue, not without the prior consent of the Joint Bookrunners, propose or issue additional B-shares or other B-share related equity securities, with certain exceptions, for example as consideration

shares in connection with acquisitions.

In connection with the Listing, the Company agreed not to, without the prior consent of the Joint Bookrunners, propose or resolve on an issue of shares or other equity securities until and including June 10, 2025. The Joint Bookrunners have decided to grant an exemption from this undertaking for the purpose of the Share Issue.

Prior to the Listing, all shareholders of the Company at that time, except for shareholding employees that were not PDMR's, as well as all then board members and senior executives, entered into customary lock-up commitments for their A-shares until and including December 12, 2026, and for their B-shares until and including December 7, 2025.

Advisors

Information to distributors

In order to comply with the product governance requirements contained in: (a) Directive 2014/65/EU of the European Parliament and of the Council on markets in financial instruments, as consolidated, ("MiFID II"); (b) Articles 9 and 10 of Commission Delegated Directive (EU) 2017/593, which complements MiFID II; and (c) national implementing measures (together, the "MiFID II Product Governance Requirements") and to disclaim any extra-contractual, intra-contractual or other liability to which any "manufacturer" (within the meaning of the MiFID II Product Governance Requirements) may otherwise be subject, the shares of INTEA have been subject to a product approval process, which has determined that these shares are: (i) suitable for a target market consisting of retail investors and investors meeting the criteria of professional clients and eligible counterparties, as defined in MiFID II (the "Positive Target Market"); and (ii) suitable for distribution through all distribution channels permitted under MiFID II. Distributors should note that: the price of the INTEA Shares may fall and investors may lose all or part of their investment; the INTEA Shares are not subject to any guarantee of return or capital protection; and an investment in the INTEA Shares is only suitable for investors who are not in need of a guaranteed return or capital protection and who (alone or with the assistance of an appropriate financial or other adviser) are capable of evaluating the merits and risks of such investment and have sufficient resources to bear the losses that may result from such investment. Conversely, an investment in the shares of INTEA is not suitable for investors who need full capital protection or full repayment of the amount invested, cannot bear any risk or who require a guaranteed or predictable return (the "Negative Target Market", and together with the Positive Target Market, the "Target Market"). The Target Market assessment is without prejudice to any other requirements regarding contractual, legal or regulatory sales restrictions in relation to the Share Issue. Furthermore, it should be noted that notwithstanding the Target Market assessment, the Joint Bookrunners will only provide investors who meet the criteria of professional clients and eligible counterparties.

For the avoidance of doubt, the Target Market Assessment does not constitute: (a) an assessment of suitability or appropriateness for the purposes of MiFID II; or (b) a recommendation to any investor or group of investors to invest in, or purchase, or take any other action whatsoever with respect to the

shares in INTEA.

Each distributor is responsible for undertaking its own target market assessment in respect of the shares in INTEA and determining appropriate distribution channels.
