

## Agreement at a value of 8 MSEK signed between C-RAD and new customer in Germany

**C-RAD and a new customer in North Rhine-Westphalia, Germany, signed partnership agreement.**

The order, which has a value, before taxes, of approximately 8.2 MSEK for C-RAD, includes SGRT-solution for CT room and treatment rooms, including modules for Respiratory Gating, Patient Setup & Positioning, and Motion Monitoring. A service contract for several systems is also included. Delivery and installation are expected to commence before the end of the year.

“We are honored that this maximum care hospital, with a long and prominent tradition, has selected C-RAD as their preferred solution. We are delighted that this institution decided to incorporate our cutting-edge technology and its clinical benefits into their daily routine, further solidifying our position as market leaders. The installation will be integrated into existing therapy systems, allowing patients and users to experience the benefits of our solution in the near term”, said Cecilia de Leeuw, CEO and President of C-RAD AB.

### **About C-RAD**

C-RAD develops surface-guided imaging solutions for radiation therapy to allow highly accurate dose delivery to the tumor, and at the same time, to protect healthy tissue from unwanted exposure. Using high-speed 3D cameras combined with augmented reality, C-RAD supports the initial patient setup process and monitors the patient's motion during treatment to ensure high confidence, an efficient workflow, and improved accuracy. C-RAD monitors the patient's motion without the use of tattoos or additional imaging dose, to deliver the highest level of patient safety and comfort.

C-RAD. Inspiring excellence in cancer treatment.

C-RAD AB is listed on NASDAQ Stockholm.
