

IRLAB: Invitation to the interim report for Q1 2024 presentation and webcast

Gothenburg, Sweden, May 6, 2024 – IRLAB Therapeutics AB (Nasdaq Stockholm: IRLAB A), a company discovering and developing novel treatments for Parkinson's disease, today announced that the company will hold a presentation in conjunction with the publication of the interim report for the period January-March 2024. The interim report will be published on Wednesday, May 8, at 07:00 CET.

The presentation will be held on May 8, 2024, at 10:00 CET via digital webcast. Gunnar Olsson, CEO, Nicholas Waters, EVP and Head of R&D, and Viktor Siewertz, CFO, will comment the interim report. The presentation will be held in English and will be followed by a Q&A session.

Follow the webcast online: https://www.youtube.com/watch?v=xv4qL_nKV3s

The interim report and the presentation will be available on www.irlab.se, and the recorded version of the presentation will be available shortly afterward.

About IRLAB

IRLAB is discovering and developing a portfolio of transformative therapies targeting all stages of Parkinson's disease. The company has its origin in Nobel Laureate Prof. Arvid Carlsson's research group and the discovery of a connection between the brain's neurotransmitters and CNS disorders. Mesdopetam (IRL790), in development for the treatment of levodopa-induced dyskinesias, has completed Phase IIb and is in preparation toward Phase III. Pirepemat (IRL752), is currently in Phase IIb, being evaluated for its effect on balance and fall frequency in Parkinson's disease. In addition, the company is also progressing the three preclinical programs IRL757 (financially supported by the Michael J. Fox Foundation), IRL942, and IRL1117 towards Phase I studies. IRLAB's pipeline has been generated by the company's proprietary systems biology-based Integrative Screening Process (ISP) research platform. Headquartered in Sweden, IRLAB is listed on Nasdaq Stockholm (IRLAB A). For more information, please visit www.irlab.se.
