

## SEB publishes interview with EPTI's founder and CEO Arli Mujkic

**One of Sweden's largest banks, SEB, has today published an interview in Swedish with EPTI's founder and CEO Arli Mujkic on its website. The interview describes Arli's background and entrepreneurial journey and can be found [here](#).**

*"Arli Mujkic is the entrepreneur who started to learn coding by hand (pen and paper). At the age of fourteen, he built a 3D engine used by NASA and when he sold his next company for ten million SEK, his Dad had to buy the champagne - because Arli had not yet turned 20. Today he is the founder and CEO of the listed company EPTI" from the above-mentioned interview with SEB.*

**About EPTI**

EPTI invests capital and operational support for companies, entrepreneurs and founders to build market-leading innovative companies under the motto "We Empower Innovation". As a venture builder, this is done by adding experience from other founders, capital, resources, processes, state-of-the-art technology as well as commercial execution and marketing. EPTI also starts companies and joint ventures with driven co-founders and companies. The companies in EPTI's portfolio are in the segments Gaming, Fintech, Marketplace, SaaS and Services. Since the start in 2017, a portfolio of more than 25 companies has been built up, of which the majority-owned companies comprise a total of approximately 200 coworkers in seven countries around Europe. EPTI is more than an investment company, it is partly an investment company and partly a service company. A venture builder for founders, by founders.
