

BeammWave highlighted increasing technology maturity and a recent inflow of customers at Redeye Technology & Life Science Day

BeammWaves technology can be integrated into smartphones, base stations, Fixed Wireless Access (FWA), satellites, and many other applications. Learn more about this and other exciting developments as CEO Stefan Svedberg shared the company's progress and vision during BeammWave's presentation at the Redeye Technology & Life Science Day on December 3.

"Just a few weeks ago, we received our second customer order from a market leader in the mmWave industry. Today, we announced that BeammWave and Alpha Networks have entered into an agreement to conduct a joint pre-study for the next generation Fixed Wireless Access products", says Stefan Svedberg, CEO at BeammWave.
