

Truck Manager Reaches 1 Million Preregistrations

Copenhagen, Denmark – Trophy Games proudly announces that our upcoming title, Truck Manager, has surpassed 1 million preregistrations within the first month of its three-month preregistration period. This strong early interest highlights the game's potential.

We have made significant improvements to the late-game experience and invested heavily in enhanced graphics compared to our previous titles. For context, our previous games, Train Manager and Energy Manager, ended their preregistration phases with 500,000 and 300,000 preregistrations, respectively.

Søren Gleie, CEO of Trophy Games, said, "The response to Truck Manager has been fantastic. Our team's hard work is paying off, and we are excited to deliver a top-tier gaming experience." With two months remaining in the preregistration phase, we look forward to even more excitement leading up to the official launch.

Preregister now to join the growing community awaiting Truck Manager's release:
