

BioInvent moves to Nasdaq Stockholm's Mid Cap segment

Lund, Sweden – December 20, 2021 – BioInvent International AB ("BioInvent") (Nasdaq Stockholm: BINV), a biotech company focused on the discovery and development of novel and first-in-class immune-modulatory antibodies for cancer immunotherapy, today announces that the company will be moved to the Mid Cap segment on Nasdaq Stockholm from January 3, 2022. The change from Small Cap is a result of Nasdaq's annual review of the average market value in the Nordic market segments. The Mid-cap segment includes companies with a market capitalization between EUR 150 million and EUR 1 billion.

"The promotion of the BioInvent share to the Nasdaq Nordics Mid Cap segment further bolsters the profile of our company, and the significant progress we have made in expanding our pipeline with several candidates in clinical development," said **Martin Welschof, CEO of BioInvent**.

About BioInvent

BioInvent International AB (Nasdaq Stockholm: BINV) is a clinical-stage biotech company that discovers and develops novel and first-in-class immuno-modulatory antibodies for cancer therapy, with currently three drug candidates in four ongoing clinical programs in Phase 1/2 trials for the treatment of hematological cancer and solid tumors, respectively and a fifth program just initiating clinical development. The Company's validated, proprietary F.I.R.S.T™ technology platform simultaneously identifies both targets and the antibodies that bind to them, generating many promising new drug candidates to fuel the Company's own clinical development pipeline or for additional licensing and partnering.

The Company generates revenues from research collaborations and license agreements with multiple top-tier pharmaceutical companies, as well as from producing antibodies for third parties in the Company's fully integrated manufacturing unit. More information is available at www.bioinvent.com.
