

## Ortivus is awarded a contract regarding the delivery of defibrillators to Region Västmanland

**Ortivus is awarded a contract on the delivery of equipment to Region Västmanland's ambulance and hospital services. The agreement regards Ortivus' solution MobiMed Life and covers manual and semi-automatic external defibrillators (AEDs). The order value is estimated to 6.9 MSEK and the contract duration is 2 years with a possible extension of another 1 + 1 years.**

We are pleased to announce that Region Västmanland has decided to award Ortivus a contract regarding the delivery of new equipment to the region's prehospital and hospital care. Region Västmanland is already Ortivus' customer and has for several years been using MobiMed Monitor for vital signs monitoring and MobiMed ePR, a solution for advanced decision support and documentation. By awarding Ortivus this contract, the region gets a modular and competitive total solution for its prehospital care.

The contract pertains to 50 units of the model Reanibex 500 EMS to the ambulance organisation and 150 units of the model Reanibex 300 to the region's hospital care. Ortivus has exclusive distribution rights for Reanibex in the Nordic countries, the United Kingdom and Ireland.

*"The fact that Region Västmanland, that has been Ortivus' customer for many years, once again chooses Ortivus as the preferred supplier in a new product segment, indicates great customer satisfaction and competitive solutions. We look forward to delivering MobiMed Life to the region and to a continued good collaboration."* Says Stefan Ekblom, Senior Account Manager at Ortivus

The contract will be signed after a period of 10 days from the date of the award, in accordance to the procurement regulations.

## About Ortivus

---

Ortivus develops and commercialises MobiMed, medical technology solutions for a safer and more efficient healthcare. The company was founded in 1985 and is today a leading provider of mobile digital solutions for prehospital care, worldwide. Ortivus' products are based on in-depth expertise in cardiology as well as decades of development together with users and customers. The company's headquarters are located in Danderyd, Stockholm and the company has, since 1998, a wholly-owned subsidiary based in the United Kingdom.

MobiMed is a modular platform that currently is used by over 12,000 paramedics in over 2,700 emergency vehicles. The platform consists of a monitor that in real-time measures, monitors and shares patients' vital parameters, such as, ECG, blood pressure and blood oxygenation. The system also consists of an electronic patient record for decision support, collection of patient data and clinical documentation.

MobiMed has a total weight of 3.5kg and is created to function in a demanding environment and out in the field. The two-way communication supports telemedicine consulting with clinical experts while patient data is seamlessly integrated into the medical records at the hospitals and primary care centers. MobiMed saves time and helps healthcare professionals make the right decisions in critical situations. MobiMed also contributes to improved quality of care and saved resources.

Ortivus Class A and Class B shares are listed on the NASDAQ Stockholm Small Cap list.
