

Impact Coatings Receives Follow-on Order from SEKSUN for INLINECOATER IC2000 for Fuel Cell Coatings

Impact Coatings AB (publ) has received a system order for an INLINECOATER™ IC2000 from SEKSUN Technology (Suzhou) Co., Ltd., a Chinese manufacturer of high-precision metal parts for the automotive industry. The system will be used for coating metal bipolar plates for fuel cells. Impact Coatings received an initial IC2000 order for delivery to SEKSUN in 2023, which was delivered during Q4 2023. Delivery of the second IC2000 system is planned for 2024. The order value is in the EUR 2 million range.

“This order is further proof of the ongoing build-up of a supply chain for fuel cells in China, primarily for mobility applications,” said Yaowen Wang, Regional President China at Impact Coatings.

About Impact Coatings

Impact Coatings is a global technology leader and full-service provider of coating solutions using PVD technology. The company focuses on hydrogen and metallization applications, both part of important growth markets.

PVD stands for Physical Vapor Deposition – clean processes of applying thin layers of coatings to design surface properties, prolong lifespan, and improve product performance. The company's offer consists of efficient, modular, and flexible PVD equipment, and Coating Services, underpinned by 25 years of coating experience and expertise.

The Company was founded in 1997 and has since expanded in Europe, Asia and North America. Current production facilities are located in Linköping, Sweden, and in Shanghai, China, with a new site planned in the USA.

The Impact Coatings share is listed on Nasdaq First North Growth Market (Nasdaq Nordic). The company's Certified Adviser is Redeye AB.
